(12) "Dockage" means inert matter, weed seeds, other crop seeds and, also, all seeds of the kind being tested for dockage which are found in the pan underneath the bottom screen, after a screen test for determination of dockage has been made from a representative sample of thresher-run or rough cleaned legume and grass seeds.

[Above paragraph amended by Am. 10, effective 11-14-45]

(i) The percentage of dockage shall be determined by taking a representative sample of at least either two ounces or 50 grams (such representative sample being a composite of samples drawn from each bag or container of the lot of seed in question) and removing as much dockage as possible therefrom by the use of one of the following combinations of hand screens:

Kind of seed	Combination of screen sizes		
	Top	Middle	Bottom
Alfalfa	11/64" or 5/64" x 5/16"	1/4"	4 x 24
Medium and Mammoth red clover.	5/16" or 5/64" x 5/16"	1/4"	6 x 24
Alsike clover	1/8"		6 x 32
White blossom sweetclover.	5/16" or 5/64" x 5/16"	1/4"	6 x 24
Yellow blossom sweetclover.	5/16" or 5/64" x 5/16"	1/4"	4 x 26
Timothy	1/16"		6 x 34

(ii) And, thereafter, separating the seeds of the kind being tested riding the screens from the remaining dockage riding said screens by the hand separation method as prescribed by the regulations issued under and for the enforcement of the Federal Seed Act;

(iii) And, in the case of the presence of sweetclover seed as other crop seed in a lot of thresher-run or rough cleaned alfalfa, red clover or alsike clover seeds, discount the actual percentage of such sweetclover seed that passes through the top screen but remains on the middle and bottom screens in addition to the discount made for other dockage per 100 pounds of the thresher-run or rough cleaned seed in question as follows:

Sweetclover seed content	Amount to be deducted per 100 pounds					
	Alfalfa				Red Clover	Alsike Clover
	Northern	Central	Arizona and California	Southern		
Less than 0.5%	None	None	None	None	None	None
0.5% to and including 1.00%	$1.05	$0.95	$0.95	$0.85	$0.75	$0.75
1.01% to and including 2.00%	2.10	1.90	1.90	1.70	1.50	1.50
2.01% to and including 3.00%	3.15	2.85	2.85	2.55	2.25	2.25
3.01% to and including 4.00%	4.20	3.80	3.80	3.40	3.00	3.00
4.01% to 5.00% and over	5.25	4.75	4.75	4.25	3.75	3.75

(iv) And, in the case of the presence of alsike clover seed as other crop seed in a lot of thresher-run or rough cleaned red clover seed, determine, by the use of the hand screens given for alsike clover in subparagraph (i) above, the actual percentage of such alsike clover seed which has passed through the screens and is in the dockage in the pan underneath the bottom screen. The percentage of alsike clover seed may then be added at its value as alsike clover to the value determined for the percentage of red clover seed of the lot in question.

[Subparagraph (12) amended by Am. 4, 10 F.R. 1269, effective 2-5-45; and Am. 8, 10 F.R. 9800, effective 8-13-45]

(13) "Your transportation cost" means:

(i) If you employ a common carrier, contract carrier, or other carrier for hire or compensation, the charge which you actually incur for the transportation service; or

(ii) If you do your own hauling by truck, automobile or wagon, the following scale of charges:

If the total haul does not exceed 100 miles—3 cents per 100 pounds for the first five miles or fraction thereof plus 1 cent per 100 pounds for each additional five miles or fraction thereof.

If the haul exceeds 100 miles—the lowest carload rail rate from the rail point nearest the point of origin to the rail point nearest the point of destination, plus 8 cents per 100 pounds, or the common or contract carrier rate (where a rate is available), whichever is lowest, but not to exceed in either case 22 cents per 100 pounds plus 1/4 cent per 100 pounds for each five miles or fraction thereof over 100 miles.

In applying the above mileage scale all distances shall be determined via the shortest route between point of origin and point of destination reasonably suitable for truck movement.

Any regional office, or any district office authorized by the appropriate regional office, may adjust the delivery charge provided in this subdivision (ii) insofar as it applies to deliveries to a specified locality from any named point or points, when it appears that the nature of the haul is such that the charges otherwise permitted are, in view of the unusual local conditions, inadequate and are likely to disrupt the movement of the commodity to that locality.

[Subparagraph (ii) amended by Am. 2, 9 F.R. 13264, effective 11-13-44]

(iii) When any movement involves a combination of the above types of transportation, the transportation cost for such movement shall be the sum of the amounts computed separately for each part of the movement.

(iv) If you bulk two or more lots of legume and grass seeds, on which you have paid varying transportation costs, into a single lot, you may use a weighted average of such transportation costs for the entire quantity.

(14) "Person" means an individual, corporation, partnership, association or other organized group of persons or the legal successor or representative of any of the foregoing, and includes the United States or any other Government or any political subdivision or agency of any of the foregoing.

(15) "Producer" means with respect to a particular lot of thresher-run or rough cleaned legume and grass seeds, a person who produced or harvested such lot.

(ii) Refines and purifies thresher-run seeds and rough cleaned seeds through the use of specialized processing machinery designed to remove weed seeds and noxious weed seeds;

(iii) Blends and bulks processed legume and grass seeds into lots of uniform quality;

(iv) Tests or has tested such seeds to determine uniformity of quality and to determine purity, germination, weed seed content and rate of occurrence of noxious weed seeds; and

(v) Sells such seeds properly labelled in compliance with the applicable seed laws.

[Subparagraph (17) amended by Am. 5, 10 F.R. 4208, effective 4-17-45]

(18) "Wholesaler" means, with respect to a particular lot of legume and grass seeds, a person who buys such lot of legume and grass seeds as quality cleaned or processed legume and grass seeds, unloads such lot into a warehouse and resells such lot to retailers.

These base prices shall not be used independently as a maximum price for any sale.

(b) The foregoing definitions have like meaning in this regulation whether referring to the class as a whole (e. g. legume and grass seeds) or to a specific kind or variety comprised therein (e. g. alfalfa, Northern, Central or Southern).

SEC. 9. *Certain maximum service charges.* The maximum service charges which may be made per 100 pounds for the services of assembling, rough cleaning and quality cleaning legume and grass seeds are set forth below. SEC. 12. *Maximum prices for sales of quality cleaned and processed seeds.* Maximum prices for all sales of quality cleaned and processed seeds are found in this section. Maximum prices of such seeds vary according to quality, type of seller and according to whether they are sold by a seller who has customarily sold seeds on a basis of uniform quality. Differences in degree of purity and germination are adjusted in the tables of base prices which are found in section 13. You may take the applicable premiums provided in section 13, but you must give the applicable discounts provided therein. Whenever reference is made to a base price, refer to that section. In section 13 you will find that the particular quality of the seed you are selling has its own base price, without reference to the type of seller you may happen to be.

Once a base price has been determined, this section will explain how you determine your own maximum price. You must consult the definitions to determine your class of seller on the particular sale, as we have defined your status according to the particular sale you are making. You may be one class of seller on one sale and another class of seller on a different sale.

If you are a producer selling seeds which have been quality cleaned from seeds produced by you, your maximum price will be found in paragraph (a). If you meet the requirements of the definition of a Commercial Processor, as we have defined him, your maximum price is provided in paragraph (b). If you are a wholesaler, as we define him, your maximum price is found in paragraph (c), if a retailer in paragraph (d), or if a country dealer in paragraph (e). All other sellers find their maximum prices in paragraph (f).

SEC. 13. *Base prices applicable to quality cleaned and processed legume and grass seeds.* You have found in the maximum pricing provisions that base prices are provided in this section. These base prices are on a dollars and cents basis per 100 pounds, net weight, sacks free, and are so worked out that you can find a base price on the particular kind and quality of quality cleaned or processed seed or quality cleaned or processed seed mixture on which you are determining a maximum price. Base prices are not maximum prices and are to be used only as indicated in other provisions of the regulation. This section refers you to tables in the appendix where the base prices, discounts, and premiums are set forth in dollars and cents.

The base prices in dollars per 100 pounds, net weight, sacks free, on Alfalfa, Red Clover, Alsike Clover, Sweetclover and Timothy seeds are those set forth in the appendix which also shows discounts for weed seed content, noxious weed seed content, and sweetclover seed content; premiums for extra high quality seed; and base prices for quality cleaned or processed seed mixtures. All the applicable discounts must be taken, and the premiums may be taken with respect to each lot in which they appear.

You shall first determine the appropriate figure for the particular lot in question according to its pure seed percentage and its percentage of total germination and hard seed. Then you determine the weed seed content, noxious weed seed content and sweetclover seed content, and subtract the appropriate amounts to be deducted for these factors from the amount obtained in the previous sentence. If you have extra high quality seed you may add the applicable premiums. The amount which you obtain as a result of these calculations will be your pure seed base price. "Pure seed" means with respect to any kind of seed being considered, seed of that kind which meets the qualifications of purity and germination as set forth in the tables in the appendix.

Whenever quality cleaned or processed legume and grass seeds or quality cleaned or processed seed mixtures are sold in bulk or buyer's sacks, the maximum prices set forth in this section shall be decreased by the reasonable market value of the sacks used (not exceeding any maximum price established thereon).

(h) *Quality cleaned and processed seed mixtures.* (1) This paragraph establishes base prices for quality cleaned and processed seed mixtures composed of alsike clover and white Dutch clover seeds or white Dutch clover and any of the other seeds covered by this regulation. Subparagraphs (2) and (3) below shall have no application to these mixtures. The base price per 100 pounds for the sale of a

quality cleaned or processed seed mixture composed of alsike clover and white Dutch clover seeds or white Dutch clover and any of the other seeds covered by this regulation shall be the base price per 100 pounds of alsike clover seed, figuring the purity according to the combined purities of the two or more kinds of seeds in the mixture, and the germination and hard seed according to the weighted average of the percentages of germination and hard seed in said two or more kinds of seeds, plus an addition at the rate of 35 cents per pound for each one pound or fraction thereof over 5 pounds of white Dutch clover seed per 100 pounds of the lot. This base price shall be reduced per 100 pounds of seed as follows:

(i) For weed seed content, by the same discount provided for alsike clover seed under paragraph (f) (1) of this section;

(ii) For noxious weed seed content, by the same discounts provided for alsike clover seed under paragraph (f) (2) of this section.

(2) This paragraph establishes base prices for two classes of mixtures: quality cleaned and processed seed mixtures in which all of the seeds are subject to the regulation, and quality cleaned and processed seed mixtures composed of two or more seeds subject to the regulation when present in excess of 75% of the whole and one or more seeds not subject to the regulation.

Except for mixtures of alsike clover and sweetclover seeds or red clover and sweetclover seeds, the base prices for such mixtures shall be determined by multiplying the percentage of each seed subject to the regulation in 100 pounds of the mixtures by its base price per 100 pounds as shown in paragraphs (a), (d) and (e) of this section, whichever is applicable, taking the purity of the mixture less 5 percent and the particular percentage of germination and hard seed for each kind of seed subject to the regulation in the mixture, and adding the results.

For mixtures of alsike clover and sweetclover seeds or red clover and sweetclover seeds, the prices shall be determined by multiplying the percentage of each seed in 100 pounds of such mixtures by its base price per 100 pounds as shown in paragraphs (d) (1) and (2) of this section, whichever is applicable, taking the highest possible purity and the particular percentage of germination and hard seed for each kind of seed in such mixture, and adding the results.

These base prices shall be reduced per 100 pounds of seed as follows:

(i) *For weed seed content:*

Weed seed content:	*Amount to be deducted per 100 pounds of seed*
Less than 0.50 percent	None
0.50–1.00 percent	$0.50

501–1000 per pound	3.00
For each additional 500 or fraction thereof per pound	.50

(iii) *For sweetclover seed content:* In any quality cleaned or processed seed mixtures of any combination of alfalfa, red clover, alsike clover and sweetclover, the base price for such mixture shall be reduced for sweetclover seed content as follows:

Sweetclover seed content:	*Amount to be deducted per 100 pounds of seed*
5.00% and over	$5.00

[Subparagraphs (1) and (2) amended by Am. 10, effective 11–14–45]

(3) This paragraph establishes base prices for quality cleaned or processed seed mixtures composed of one seed subject to the regulation and seeds not subject to the regulation, when the former is in excess of 75% of the whole.

The base price for the sale of any quality cleaned or processed seed mixture, in which one of the seeds subject to the regulation is mixed with seeds not subject to the regulation and the former is present in excess of 75% of the whole, shall be determined by multiplying the percentage of the principal component in 100 pounds of the mixture by its base price per 100 pounds, figured on the basis of its highest possible purity and its actual percentage of germination and hard seeds in the mixture, and the result shall be the base price for such mixture. This base price shall be reduced per 100 pounds of seed as follows:

(i) For weed seed content, by the same discounts for weed seeds that are provided for the principal component under paragraphs (b) (1) and (f) (1) of this section;

(ii) For noxious weed seed content, by the same discounts for noxious weed seeds that are provided for the principal component under paragraphs (b) (2) and (f) (2) of this section;

(iii) For sweetclover seed content, by the same discounts that are provided for the principal component under paragraphs (b) (3) and (f) (3) of this section.

PART 1499—COMMODITIES AND SERVICES

[SR 14E,[1] Amdt. 15]

SALES AT WHOLESALE OF CERTAIN COTTON PRODUCTS

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith has been filed with the Division of the Federal Register.

Section 2.7 of Supplementary Regulation 14E is amended in the following respects:

1. Section 2.7 (a) (5) is amended to read as follows:

(5) "Net cost" is the cost stated on your supplier's invoice less all available discounts and plus your freight charges, if any, from the producer's mill to your place of storage.

2. Section 2.7 (b) (6) is amended by deleting the last undesignated paragraph beginning, "This subparagraph (6) shall not apply * * *" and by substituting therefor the following paragraph:

(6) This subparagraph (6) shall not apply to the sales of the following articles for which maximum prices have been revised by Supplementary Order 131, as amended:

(i) Bed linens, including bleached pillow tubing.

(ii) Terry products, huck and crash towels and corded napkins.

(iii) 100% American cotton bed and crib blankets and blanket-robe cloth.

3. Section 2.7 (f) is amended to read as follows:

(f) *Sales of certain cotton products for which producers' prices have been revised by Supplementary Order 131*—(1) *Articles priced under this paragraph.* Under the succeeding subparagraphs, modified ceiling prices are established for articles, the producers' maximum prices of which have been revised pursuant to Supplementary Order 131, as amended. In pricing under this paragraph, it is important to know the meaning of the terms "net cost," "institutional wholesaler" and "1942 markup." The first two terms are defined respectively in paragraphs (a) (5) and (a) (4). The term "1942 markup" means the markup you had in March 1942 for the article you are pricing. To figure this markup—(i) find the subparagraph of paragraph (f) in which the article you are pricing is listed; (ii) find the last invoice you received prior to March 31, 1942, for an article[3] in that subparagraph which you delivered in March 1942 in the type of sale (out-of-stock or drop shipment) involved in the sale of the article you are pricing; (iii) determine your net cost of that article you delivered in March 1942; (iv) find the difference between this net cost and the highest price at which you delivered that article in March 1942 for the type of sale involved in the sale of the article you are pricing; (v) divide this difference by the net cost determined in (iii). The result is your "1942 markup."

(2) *Bed linens.* The maximum prices for sales at wholesale of bed linens of types 112, 128,[4] 140,[4] and 180, and the back filled type[4] for which the manufacturer's maximum price is established by Revised Price Schedule No. 89—Bed Linens[5] and for sales at wholesale of "Mohawk" bed linens manufactured by Utica and Mohawk Cotton Mills, Inc., for which the manufacturer's maximum price as established by Revised Price Schedule No. 89 was adjusted by Order No. 15 under Supplementary Order No. 86, dated July 3, 1944, are as follows:

(i) For a sale at wholesale (other than a sale by an "institutional wholesaler" to an institutional, commercial or industrial user), the lower of:

(*a*) The sum of the net cost of the article being priced and 13.6% of that net cost for out-of-stock shipments; but in the case of "drop shipments", the sum of the net cost of the article being priced and 7.5% of that net cost, or

(*b*) The sum of the net cost of the article being priced and an amount derived by applying the seller's "1942 markup" to that net cost.

(ii) For a sale at wholesale by an "institutional wholesaler" (as defined in paragraph (a)) to an institutional, commercial or industrial user, the sum of:

(*a*) The seller's maximum price determined in accordance with the General Maximum Price Regulation.

(*b*) 7.4% of the manufacturer's price established by Revised Price Schedule No. 89 prior to August 31, 1945, and

(*c*) The amount by which the manufacturer's maximum price in effect on August 30, 1945, under Revised Price Schedule No. 89, was increased after that date.

(3) *Towels.* The maximum prices for sales at wholesale of terry products, huck and crash towels and corded napkins are as follows:

(i) For a sale at wholesale (other than a sale by an "institutional wholesaler" to an institutional, commercial or industrial user), the lower of:

(*a*) The sum of the net cost of the article being priced and 17.6% of that net cost for out-of-stock shipments; but in the case of drop shipments, the sum of the net cost of the article being priced and 10.3% of that net cost; or

(*b*) The sum of the net cost of the article being priced and an amount derived by applying the seller's "1942 markup" to that net cost.

(ii) For a sale at wholesale by an "institutional wholesaler" (defined in paragraph (a)) to an institutional, commercial or industrial user, the sum of:

(*a*) The seller's maximum price determined under paragraph (g) or (h) of section 2.7 of this regulation as in effect on August 30, 1945, and

(*b*) The amount by which the producer's maximum price in effect on August 30, 1945, under Maximum Price Regulation No. 118, was increased after that date.

(4) *Cotton blankets.* The maximum prices for sales at wholesale of 100% American cotton bed and crib blankets and blanket-robe cloth are as follows:

(i) For a sale at wholesale (other than a sale by an "institutional wholesaler" to an institutional, commercial or industrial user), the lower of:

(*a*) The sum of the net cost of the article being priced and 16.6% of that net cost for out-of-stock shipments; but in the case of drop shipments, the sum of the net cost of the article being priced and 9.7% of that net cost; or

(*b*) The sum of the net cost of the article being priced and an amount derived by applying the seller's "1942 markup" to that net cost.

(ii) For a sale at wholesale by an "institutional wholesaler" (defined in paragraph (a)) to an institutional, commercial or industrial user, the sum of:

(*a*) The seller's maximum price on August 30, 1945, and

(*b*) The amount by which the producer's maximum price in effect on August 30, 1945, under Maximum Price Regulation No. 118, was increased after that date.

4. Paragraphs (g), (h), and (j) of section 2.7 are revoked.

5. Paragraph (p) is added to section 2.7 to read as follows:

(p) *"Cross stream" sales.* The maximum prices for "cross stream" sales shall be established as follows: The maximum price for the first sale of an article covered by this section when made by a wholesaler to a wholesaler, is the seller's net cost of that article (not exceeding his supplier's ceiling price). For subsequent sales of the same article by wholesaler to wholesaler, the maximum price is the net purchase price paid by the wholesaler who made the first "cross stream" sale.

Example: X, a wholesaler, buys sheets at $12 per dozen, net. He liquidates his business and sells the sheets to Y, another wholesaler. X's maximum price to Y is $12 per dozen although he sells the sheets to Y for $11 per dozen, net. Y wants to sell to Z, another wholesaler. Y's maximum price is $12 per dozen, net, which is the price paid by X who made the first "cross stream" sale.

This amendment shall become effective November 14, 1945.

Issued this 9th day of November 1945.

CHESTER BOWLES,
Administrator.

[3] In the case of sheets and pillow tubing, an "article" means, for sheets, a sheet of the same type, and for pillow tubing, pillow tubing of the same type.

[4] Bed linens of types 128 and 140 include types 128 and 140 of bleached pillow tubing.

[4] Types 112, 128, 140 and 180 and the back filled type are defined in Table 1, § 1316.111 of Revised Price Schedule No. 89. That Schedule requires bed linens, when sold by the manufacturer, to bear a label stating the type.

[5] "Bed linens" means finished sheets, finished pillow cases, finished bolster cases, bleached pillow tubing, domestic-type grey wide sheeting, brown sheeting and bleached sheeting. However, it refers only to goods made of cotton and does not include goods made wholly of combed yarn.

SEC. 4. *Classification*—(a) *Basis of classification.* All skim milk or butterfat contained in milk, skim milk, cream, and other milk products received by a handler or caused to be delivered to a plant in the manner described in section 1 (f) (2) shall be reported in the classes set forth in (b) of this section, subject to the conditions set forth in (c) and (d) of this section.

(2) Class II milk shall be all skim milk and butterfat disposed of as bulk condensed skim milk, bulk condensed whole milk, cottage cheese, ice cream, and ice cream mix.

(3) Class III milk shall be all skim milk and butterfat specifically accounted for as used to produce, or disposed of as, any other milk product not specified in Class I milk and Class II milk.

(c) *Interhandler and nonhandler sales.* Skim milk or butterfat disposed of in the form of milk, skim milk, or cream by a handler to another handler or to a person, not a handler, who distributes milk or manufactures milk products shall be presumed to be Class I milk, unless the selling handler proves to the satisfaction of the market administrator that any such skim milk or butterfat was used in a different class: *Provided*, That any such classification shall not be in conflict with the provisions of section 4 (e) (10). The burden of proof shall be on the selling handler and proof shall be made at such time and in such manner as the market administrator may by general rule direct.

(d) *Responsibility of handlers and reclassification of milk.* (1) Skim milk or butterfat classified in one class shall be reclassified if later used or disposed of by a handler in another class, in accordance with such later use or disposition.

(2) In establishing the classification of any skim milk or butterfat received by a handler in milk from producers, the burden rests upon the handler who receives the skim milk or butterfat from producers to account for the skim milk or butterfat and to prove to the market administrator that such skim milk or butterfat should not be classified as Class I milk.

(3) With respect to skim milk or butterfat disposed of to another handler, the burden rests upon the handler who purchased the skim milk or butterfat from producers to account for the skim milk or butterfat and to prove to the market administrator that such skim milk or butterfat, should not be classified as Class I milk: *Provided*, That if verification by the market administrator discloses a higher utilization than that reported pursuant to section 4 (c) for skim milk or butterfat purchased by a handler from an association of producers or from other handlers who receive milk from producers, the market administrator shall notify the receiving handler and such handler shall, within 5 days after notification by the market administrator, make adjustment to such association or other handler who receives milk from producers, on the basis of such higher utilization as verified by the market administrator.

(e) *Computation of the skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and for other obvious errors the delivery period report submitted by each handler and compute the respective amounts of skim milk and butterfat from milk of producers received at handler's plants and utilized in Class I milk, Class II milk, or Class III milk, as follows:

(1) Determine the handler's total receipts by adding together the total pounds of milk, skim milk, and cream received, and the pounds of butterfat and skim milk used to produce all other milk products received, except milk products disposed of in the form in which received, without further processing in his plant;

(2) Determine the total pounds of butterfat contained in the receipts computed pursuant to (1) of this paragraph;

(3) Determine the total pounds of skim milk contained in the receipts computed pursuant to (1) of this paragraph;

(4) Determine the total pounds of butterfat in Class I milk by: (i) Computing the sum of the pounds of butterfat disposed of in each of the several items of Class I milk: and (ii) adding all other butterfat not specifically accounted for;

(5) Determine the total pounds of skim milk in Class I milk by: (i) Computing the sum of the pounds (not including flavoring materials) disposed of as each of the several items of Class I milk; (ii) subtracting the result obtained in (4) (i) of this paragraph; and (iii) adding all other skim milk not specifically accounted for;

(6) Determine the total pounds of butterfat in Class II milk by: Computing the sum of the pounds of butterfat disposed of in each of the several items of Class II milk;

(7) Determine the total pounds of skim milk in Class II milk by: (i) Computing the sum of the pounds of milk, skim milk, and cream disposed of in each of the several items of Class II milk; and (ii) subtracting the result obtained in (6) of this paragraph;

(8) Determine the total pounds of butterfat in Class III milk by: Computing the sum of the pounds of butterfat used to produce each of the several items of Class III milk;

(9) Determine the total pounds of skim milk in Class III milk by: (i) Computing the sum of the pounds of milk, skim milk, cream and other milk products which were used to produce each of the several items of Class III milk and; (ii) subtracting the result obtained in (8) of this paragraph;

(10) Determine the classification of milk received from producers by: (i) Subtracting, respectively, from the total pounds of skim milk and butterfat in each class, in series beginning with Class III milk, the pounds of skim milk and butterfat in milk from other sources; (ii) subtracting, respectively, from the remaining pounds of skim milk and butterfat in each class, the pounds of skim milk and butterfat, received from handlers who receive milk from producers, and used in each class; and (iii) subtracting, respectively, from the remaining pounds of skim milk and butterfat in each class, in series beginning with Class III milk, the pounds of skim milk and butterfat by which the total pounds, respectively, in all classes exceed the pounds received from producers.

SEC. 5. *Minimum prices*—(a) *Basic formula price to be used in determining Class I milk and Class II milk prices.* The basic formula price per hundredweight of milk to be used in determining the Class I milk and Class II milk prices provided by this section, shall be the highest of the prices per hundredweight of milk of 3.5 percent butterfat content determined pursuant to (1), (2), or (3) of this paragraph.

(1) The average of the basic (or field) prices ascertained to have been paid for milk of 3.5 percent butterfat content received during the delivery period at the following places for which prices are reported to the market administrator by the companies listed below or by the Department of Agriculture:

(d) *Class III milk prices.* The prices, f. o. b. the marketing area, for each delivery period, for skim milk or butterfat in milk received from producers which is classified as Class III milk, shall be determined from the following computations:

(1) The price per hundredweight of such skim milk shall be computed by the market administrator by: subtracting 4 cents from the average price per pound of nonfat dry milk solids and multiplying the result by 8.5. The price per pound of nonfat dry milk solids to be used shall be the average price for nonfat dry milk solids, spray and roller process, for human consumption, f. o. b. manufacturing plants in the Chicago area, as reported by the Department of Agriculture for the delivery period in which the milk from producers was received, including in such average the price published for any fractional part of the previous delivery period which was not available at the time of such price determination for the previous delivery period.

(2) The price per hundredweight of such butterfat shall be computed by the market administrator by: Adding 20 percent to the average wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period in which the milk from producers was received, and multiplying the resulting sum by 100: *Provided*, That the price per hundredweight of butterfat made into butter shall be such price per hundredweight less $3.60.

(e) *Location adjustment to handlers.* (1) With respect to milk which is classified as Class I milk received from producers at a handler's plant located outside the marketing area, the handler shall be allowed to deduct from the total value of his milk f. o. b. the marketing area, the amount per hundredweight of actual product pounds thereof shipped to the marketing area.

Mileage zone (by shortest highway distance from Public Square in Cleveland)	*Cents per hundredweight*
Not more than 30 miles	0
More than 30 miles but not more than 45 miles	5
More than 45 miles but not more than 60 miles	7
More than 60 miles but not more than 75 miles	9
More than 75 miles but not more than 90 miles	11
Within each 15 mile zone thereafter—an additional 1 cent.	

Provided, That no such deduction shall apply to unaccounted for milk classified as Class I milk pursuant to section 4 (b) hereof.

(2) For the purpose of the computations provided for in (1) of this paragraph Class I milk shall be presumed to have come first from plants located in the marketing area and then from other plants in the order of their increasing distance from the Public Square in Cleveland.

SEC. 6. *Handler's obligation and uniform price to producers*—(a) *Total value of milk.* The total value of milk of each handler for each delivery period shall be a sum of money computed by the market administrator by multiplying by the respective class prices the amounts of skim milk and butterfat in each class which were received in milk from producers during the delivery period, and adding together such amounts: *Provided*, That if a handler, after the subtraction of outside milk and receipts from other handlers has disposed of skim milk or butterfat in excess of the skim milk or butterfat which, on the basis of his reports, has been credited to his producers as having been received from them, the market administrator shall add an amount equal to the value of such excess at the applicable price for the class from which such excess was subtracted pursuant to section 4 (e) (10) (iii): *Provided, further*, That if a handler has received milk, skim milk or cream from a handler who receives no milk from producers other than his own farm production which milk, skim milk, or cream has been disposed of as Class I milk or Class II milk by the receiving handler, there shall be added an amount computed by multiplying the respective quantities of skim milk and butterfat so received by the difference between the Class III value and the value of the class of disposition: *And provided further*, That if a handler has received his entire supply of skim milk and butterfat in the form of milk from other handlers who receive no milk from producers, which skim milk and butterfat received has been disposed of as Class I milk or Class II milk, the total obligation under this paragraph for the former handler shall be an amount computed by multiplying the quantities of skim milk and butterfat so received by the difference between their respective values at the Class III price and their respective values according to the class of disposition.

(b) *Price adjustment to 3.5 percent butterfat basis.* (1) Determine the amount by which the weighted average butterfat test of a handler's pooled milk is greater or less than 3.5 percent;

(2) Multiply such variance by the total hundredweight of such pooled milk.

(3) Multiply the resulting amount by the Class III price for butterfat as computed prior to the application of the proviso in section 5 (d) (2); and

(4) Add to the value computed under (a) of this section, if the butterfat test is less than 3.5 percent, or subtract from such value, if such test is higher than 3.5 percent, the value computed in (3) of this paragraph.

(c) *Computation of the uniform price.* For each delivery period the market administrator shall compute with respect to milk received by handlers from producers and associations of producers a uniform price per hundredweight by:

(1) Combining into one total the net values computed under (b) of this section for all handlers who made payments pursuant to section 7 (e) for the preceding delivery period;

(2) Adding the aggregate of the values of all location adjustments allowed with respect to pooled class I milk and class II milk, pursuant to section 5 (e).

(3) Adding an amount representing not less than half the unobligated balance in the producer-settlement fund;

(4) Dividing by the hundredweight of pooled milk; and

(5) Subtracting not less than 4 cents nor more than 5 cents. The result shall be known as the "uniform price" per hundredweight for milk of 3.5 percent butterfat content received from producers, f. o. b. the marketing area.

(d) *Notification to handler of his total value of milk and relation to producer-settlement fund.* On or before the 12th day after the end of each delivery period the market administrator shall notify each handler of the value of his milk for the delivery period as computed in accordance with (a) of this section and of the amount by which such value is greater or less than the total amount required to be paid to producers by such handler pursuant to section 7 (a), (b) and (c).

SEC. 7. *Payment for milk*—(a) *Time and method of payment.* On or before the last day of each delivery period, each handler shall pay to each producer with respect to all milk received during the first 15 days of such delivery period, a price per hundredweight not less than the uniform producer price for milk testing 3.5 percent of butterfat as announced by the market administrator for the preceding delivery period, or at the handler's option, he may pay each producer not less than 40 percent of the net price for milk delivered during the preceding delivery period.

(b) On or before the 20th day after the end of each delivery period, each handler shall pay each producer for milk purchased or received during the delivery period, an amount of money not less than the total value of such milk at the uniform price computed pursuant to section 6, subject to the location adjustment in (c) of this section and butterfat differential set forth in (d) of this section and less the partial payment made pursuant to (a) of this section.

(c) *Location adjustment to producers.* In making payments to producers pursuant to (b) of this section, handlers may deduct, with respect to all milk received from producers at a plant located outside the marketing area, the applicable amounts set forth in the following schedule:

Mileage Zone (by shortest highway distance from Public Square in Cleveland)

	Cents per hundredweight
Not more than 30 miles	0
More than 30 miles but not more than 45 miles	5
More than 45 miles but not more than 60 miles	7
More than 60 miles but not more than 75 miles	9
More than 75 miles but not more than 90 miles	11
Within each 15 mile zone thereafter—an additional 1 cent.	

(d) *Butterfat differential.* For each delivery period the market administrator shall compute, to the nearest one-tenth cent, a butterfat differential by dividing

the price per hundredweight of butterfat in Class III milk, set forth in section 5 (d) (2) prior to the application of the proviso therein, by 1.000.

(e) *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to paragraphs (f) and (h) and out of which he shall make all payments to handlers pursuant to paragraph (g) and (h) of this section: *Provided,* That the market administrator shall offset any such payment due to any handler against payments due from such handler. Immediately after computing the uniform price for each delivery period, the market administrator shall compute the amount by which each handler's net pool obligation is greater or less than the sum obtained by multiplying such handler's net pooled milk by the uniform price and shall enter such amount on each handler's account as such handler's pool debit or pool credit, as the case may be, and render such handler a transcript of his account.

(f) *Payments to the producer-settlement fund.* On or before the 15th day after the end of each delivery period each handler shall make full payment to the market administrator of any pool debit balance shown on the account rendered, pursuant to paragraph (e) of this section, for the preceding delivery period.

(g) *Payment out of the producer-settlement fund.* On or before the 17th day after the end of each delivery period, the market administrator shall pay to each handler the pool credit balance shown on the account rendered, pursuant to paragraph (e) of this section, if any, for the preceding delivery period, less any unpaid obligations of the handler, if at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce such payments pro rata and shall complete such payments as soon as the necessary funds are available. No handler, who, on the 18th day after the end of each delivery period, has not received the balance of the payment due him from the market administrator shall be deemed to be in violation of paragraph (a) of this section if he reduces his total payments to all producers by the amount of such balance and prorates such reduction among his producers on the basis of weight of the milk received from each.

(h) *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors in amounts due, or in payments to, the producer-settlement fund, the market administrator shall promptly bill such handler, for any unpaid amount and such handler shall, within 5 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler pursuant to paragraph (g) of this section, the market administrator shall, within 5 days, make such payment to such handler, whenever verification by the market administrator of the payment by a handler to any producer for milk received by such handler, discloses payment to such producer of less than is required by this section, the handler shall make up such payment to the producer not later than the time of making payment to producers next following such disclosure.

SEC. 8. *Expense of administration*—(a) *Payment by handlers.* As a pro rata share of the expense of administration hereof, each handler, with respect to all milk received from producers, association of producers, and from such handler's own production during the delivery period shall pay to the market administrator on or before the 15th day after the end of the delivery period an amount per hundredweight not to exceed 2 cents, the exact rate to be determined by the market administrator, subject to review by the Secretary.

SEC. 9. *Marketing services*—(a) *Deduction for marketing services.* Except as set forth in paragraph (b) of this section, each handler shall deduct an amount not exceeding 4 cents per hundredweight (the exact amount to be determined by the market administrator, subject to review by the Secretary) from payments made direct to producers, pursuant to section 7, with respect to all milk received by such handler during the delivery period from producers, and shall pay such deductions to the market administrator on or before the 15th day after the end of such delivery period. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk of said producers and to provide them with market information; such services to be performed in whole or in part by the market administrator, or by an agent engaged by and responsible to him.

(b) *Payment to an association.* In the case of producers, delivering to plants for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the act of Congress on February 18, 1922, as amended, known as the "Capper-Volstead Act," and to be actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section such deductions from the payments to be made pursuant to section 7 as may be authorized by such producers, and pay over, on or before the 15th day after the end of each delivery period, such deductions to the association rendering such services.

SEC. 10. *Effective time, suspension, or termination*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

(b) *Suspension or termination.* Any or all provisions hereof, or amendments hereto, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give, and shall terminate in any event, whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such persons, or agency as the Secretary may designate.

(1) The market administrator, or such person as the Secretary may designate, shall (i) continue in such capacity until removed by the Secretary; (ii) account from time to time for all receipts and disbursements and, when so directed by the Secretary, deliver all funds on hand, together with the books and records of the market administrator or such other person to such person as the Secretary shall direct; and (iii) execute, if so directed by the Secretary, such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

SEC. 11. *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

SEC. 12. *Emergency price provision.* Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy, or other similar payment, being made by any Federal agency in connection with the milk, or product, associated with the price specified: *Provided,* That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *Provided further,* That if the specified

price is not reported or published and there is no applicable maximum uniform price, or if the specified price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

Proposal of the Lorain Creamery, Lorain, Ohio:

1. Exclude the communities Avon and Avon Lake, Lorain County, Ohio, from the definition of Cleveland, Ohio, marketing area, as proposed by the Milk Producers Federation of Cleveland.

Proposals of the Wooster Farm Dairies Company, Wooster, Ohio:

1. Delete subparagraphs 1, 2, and 3 from section 4 (b) of the marketing agreement and order proposed by the Milk Producers Federation of Cleveland and substitute therefor the following:

(1) Class I milk shall be all skim milk and butterfat disposed of in fluid form (except that which has been dumped or disposed of for livestock feeding) as (i) milk, including reconstituted milk; (ii) skim milk; (iii) buttermilk; (iv) flavored milk or flavored milk drinks; and (v) all skim milk or butterfat not specifically accounted for as Class II or Class III milk.

(2) Class II milk shall be all skim milk and butterfat disposed of (i) in fluid form as sweet or sour cream; (ii) in fluid form as any mixture of cream and milk (or skim milk) which contains 8 percent or more but less than 18 percent of butterfat; or (iii) as cottage cheese.

(3) Class III milk shall be all skim milk and butterfat specifically accounted for as (i) used to produce, or disposed of as, ice cream, ice cream mix, frozen cream, condensed milk, condensed skim milk, or any other milk product not specified in Class I and Class II milk; (ii) having been dumped or disposed of for livestock feeding; or (iii) plant shrinkage but not in excess of 3 percent, respectively, of the total receipts of skim milk or butterfat, not including skim milk or butterfat received from other handlers.

2. Add to sections 5 (e) and 7 (c) of the marketing agreement and order proposed by the Milk Producers Federation of Cleveland the following proviso:

Provided however, That any handler located outside the marketing area who tests milk, standardizes delivery, renders bacterial or sanitation service or pasteurizes by-products in addition to the ordinary service of receiving, weighing and cooling milk shall be allowed to deduct in addition to the amount hereinabove provided, a sum per hundredweight which when added to the amount hereinabove provided will be sufficient to cover the actual plant cost of handling said milk but such additional deduction shall not exceed in any event 10 cents per hundredweight.

3. Amend section 8 (a) of the marketing agreement and order proposed by the Milk Producers Federation of Cleveland to clarify the assessment obligation thereunder with respect to milk received by a handler from another handler, by providing that no such assessment shall be required with respect to milk received by a handler from another handler.

Proposal of the United Milk Products Company, Cleveland, Ohio:

Give consideration to the adoption of the general and applicable provisions, definitions, and classifications of Order No. 41, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, effective July 1, 1941 (6 F.R. 3130), including amendment No. 1, effective September 6, 1941 (6 F.R. 4552), and amendment No. 2, effective February 1, 1943 (8 F.R. 1258), and as further amended, effective June 21, 1943 (8 F.R. 8294).

Proposals of the Dairy Branch, Production and Marketing Administration:

1. Give consideration to the following provision in connection with the establishment of prices: "Whenever the Secretary finds and announces that the Class I price computed for any delivery period is not in the public interest, the Class I price for such delivery period shall be the same as the Class I price for the preceding delivery period."

2. Give consideration to the adoption of an individual-handler pool in place of the market-wide type of pool provided in the marketing agreement and order proposed by the Milk Producers Federation of Cleveland. (Under an individual-handler pool the uniform price to each producer is determined on the basis of the use of milk by the individual handler to whom the producer delivers. Under a market-wide pool such price to each producer is determined on the basis of the over-all use of milk in the market, irrespective of the use made of milk by the individual handler to whom the producer delivers).

Copies of this notice of hearing may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 1331, South Building, Washington, D. C., or may be there inspected.

FEDERAL POWER COMMISSION.

[Docket No. G-675]

SOUTHERN CALIFORNIA GAS CO. AND SOUTHERN COUNTIES GAS CO. OF CALIFORNIA

NOTICE OF APPLICATION

NOVEMBER 8, 1945.

Notice is hereby given that on October 26, 1945, a joint application was filed with the Federal Power Commission by Southern California Gas Company and Southern Counties Gas Company of California, both California corporations with their principal place of business at 810 Flower Street, Los Angeles, California, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of certain facilities hereinafter described.

The proposed project will consist of a 26-inch O. D. natural-gas transmission pipeline approximately 214 miles in length, extending in an easterly direction from a point near Santa Fe Springs in the vicinity of Los Angeles, California, to a point on the Arizona-California boundary line near Blythe, Riverside County, California, where it will connect with a proposed pipeline for which El Paso Natural Gas Company has filed a certificate of public convenience and necessity.[1]

The project also includes a compressor station which will provide initial capacity of 175,000 Mcf of natural gas per 24 hours during the first 5 years following completion of the pipeline, with additional compressor capacity being installed during the succeeding 25 years which will increase the total line capacity up to 305,000 Mcf of gas per day.

The Applicants propose to obtain their gas supply for the project from the El Paso Natural Gas Company, which company in turn will obtain its supply of gas for Applicants from the Permian Basin, from Panhandle gas field and from the Hugoton field, all of which are located in West Texas.

Applicants submit that the estimated over-all cost of the initial pipe-line facilities will be approximately $12 140,000. The estimated cost of additional facilities to bring the proposed pipeline up to its ultimate maximum capacity will entail an additional expenditure of $3,000,000. It appears from the application that the proposed project will be financed out of funds currently available from their respective treasuries.

The application recites that the proposed project is necessary due to an accelerated depletion of gas reserves in the State of California, due to war conditions and other causes, and that the pipeline as above described has been expressly designed for the purpose of affording the greatest possible relief, due to such natural-gas shortage as will prevail in the future in the southern California area, as well as to provide a continued adequate natural-gas service for the communities in California served by or dependent upon Applicant's supplies of natural gas.

Applicants are presently supplying the following principal California towns and communities:

---

[1] The line referred to is a 26-inch transmission pipeline commencing at El Paso Natural Gas Company Jal No. 1 Plant, which is located approximately 4 miles south of the town of Jal in Lea County, New Mexico, and extending in a westerly direction approximately 720 miles to a point on the east bank of the Colorado River east of the town of Blythe, California. The aforementioned pipe-line project is embraced in the application filed by the El Paso Natural Gas Company, Docket No. G-655.

SPECIFIED MECHANICAL BUILDING EQUIPMENT

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register Order No. 48 under section 22 of Maximum Price Regulation No. 591 is amended in the following respects:

1. Section 1.2 is amended to read as follows:

SEC. 1.2 *Relationship of this order to SO 118, SO 119 and Section 16 of Maximum Price Regulation No. 591*—(a) *SO 118.* A small volume manufacturer, as defined below, may use as his new maximum prices those which he calculates under Supplementary Order No. 118, and general orders issued pursuant thereto, if the maximum prices so calculated are higher than the maximum prices established under the provisions of this Order No. 48.

A small volume manufacturer for the purpose of this paragraph is any manufacturer

(1) Whose total net sales of products made by him in 1941 (not including sales on contracts or sub-contracts of any United States war procurement agency of any Allied Government) did not exceed $200,000, or

(2) Who cannot reasonably expect that his sales (not including sales on contracts or sub-contracts of any United States war procurement agency or of any Allied Government) after giving consideration to all relevant factors, including the volume of his continuing war orders and the facilities, manpower and materials available for his civilian business, will not be more than $200,000 in the twelve months following the date of his report under Supplementary Order No. 118.

(b) *SO 119.* Any other manufacturer may apply for an individual adjustment under Supplementary Order 119 if, after the increase authorized for his commodity, by this Order No. 48, his maximum price still continues eligible for adjustment in accordance with the provisions of Supplementary Order 119.

(c) *Section 16 of Maximum Price Regulation No. 591.* Any manufacturer of any commodity listed under Article II of this Order shall not be eligible for an adjustment of his maximum prices for such commodities under the provisions of section 16 of Maximum Price Regulation No. 591

2. Section 2.1 (b) is amended to read as follows:

(b) *Resellers increase.* Any reseller may increase his maximum prices for the types of electrical controls listed in section 2.1 (a) above, as established under the General Maximum Price Regulation to each class of purchaser, by 5 percent.

A seller shall not be considered a "reseller" within the meaning of this paragraph when he uses the types of electrical controls covered by this section on or in connection with the sale of another article (such as an oil burner, furnace, stoker, etc.) and his maximum price for the electrical controls and such other article is established on the basis of a lump sum.

3. A new section 2.2 is added to read as follows:

SEC. 2.2 *Stokers*—(a) *Manufacturers increase.* The maximum price for sales by any manufacturer of the types of stokers set forth below and repair and service parts therefor shall be his price to each class of purchaser in effect on October 1, 1941, increased by the amount indicated:

Stokers with a capacity of 50 pounds or less—10 percent
Stokers with a capacity of 51 pounds up to and including 1199 pounds—5 percent
Repair parts and service parts for all sizes—5 percent

(b) *Optional use of this section.* Since the provisions of this section are not intended to reduce properly established maximum prices, any manufacturer whose price in effect to each class of purchaser on October 1, 1941, plus the increase provided for under (a) is less than his maximum price as established under Maximum Price Regulation No. 591, may continue to use as his maximum price, the maximum price properly established under that regulation.

(c) *Notification by manufacturers.* Any manufacturer who applies the increase permitted under (a) shall notify each purchaser, in writing, at or before the issuance of the first invoice after November 8, 1945, of the actual dollar-and-cents increase for each type of stoker over his March 1942 maximum price to that class of purchaser.

(d) *Resellers increase.* The maximum price for sale by any reseller of the types of stokers or repair and service parts therefor set forth in paragraph (a) shall be his March 1942 maximum price to each class of purchaser plus the actual dollar-and-cents increase in present cost resulting from the increase granted the manufacturer under paragraph (a), and of which he is notified by the manufacturer.

A seller shall not be considered a "reseller" within the meaning of this paragraph when he uses the types of stokers covered by this section on or in connection with the sale of another article (such as furnace, etc.) and his maximum price for the stoker and the other article is established on the basis of a lump sum.

(e) *Profit factor for use in connection with adjustments under section 1.2 (a) or (b).* Any manufacturer of the types of stokers or repair and service parts therefor set forth in section 2.2 (a) filing an application for adjustment in accordance with section 1.2 (a) or (b) may use in connection with such an application the industry profit factor of 5.5 percent.

This amendment shall become effective November 8, 1945.

Issued this 8th day of November 1945.

Administrator.

[Region VIII Order G–6 Under MPR 579]

FRESH AND FROZEN FISH AND SEAFOOD IN SAN FRANCISCO REGION

For the reasons set forth in the accompanying opinion under the authority vested in the Regional Administrator of the Office of Price Administration by section 4.13 of Maximum Price Regulation No. 579 and by paragraph (c) (6) of Revised General Order No. 32, it is hereby ordered:

(a) *What this order does.* This order establishes maximum prices for all sales (except sales by retailers) in Region VIII of the kind or species of fish or seafood, fresh or frozen, listed in paragraph (b).

Region VIII comprises the States of Washington, Nevada, California, Oregon (except those portions of Coconino County and Mohave County lying north of the Colorado River), and the following counties in the State of Idaho: Benewah, Bonner, Boundary, Clearwater, Idaho, Kootenai, Latah, Lewis, Nez Perce, and Shoshone.

(b) *Varieties of fish and seafood covered by this order.* The fish and seafood covered by this order are the following:

(1) Caught off the Pacific Coast: "Barracuda," meaning all types of barracuda (Sphyraenidae). "California halibut," meaning the species Paralichthys Californicus, including what is commonly called bastard halibut, southern halibut, or alabato.

"White seabass," meaning those fish of the species Cynoscion nobilis.

"Black seabass," meaning those fish of the species Stereolepsis gigas and commonly known as jewfish or giant bass.

"Rockbass" and "Corbina," meaning those fish of the species Paralabrax nebulifer and Menticirrhus undulatus and including those species commonly known as rockbass, kelpbass, sandbass, pinto, johnny verde, and corbina.

"Queenfish," meaning the species Seriphus Politus,

"Kingfish," meaning the species Gehyonemus lineatus.

"Herring," meaning the species Clupea pallasii.

"Whitebait," meaning the species Allosmerus attenuatus and those small fish commonly called and sold under the name whitebait.

"Rex sole," meaning the species Errex zachirus.

"Razor clams," meaning the species Siliquapatula.

(2) Caught in the Gulf of California: "Totuava," meaning Mexican seabass including grouper, commonly known as grupa, and baya.

(c) *How maximum prices are figured*—(1) *In general.* You figure your maximum price for each sale by using the provisions of Articles I, IV, and V of Maximum Price Regulation No. 579 that apply, but you substitute Table A in paragraph (e) of this order for Table IIA of section 10.1 (c) of the regulation, and substitute Table B in paragraph (e) of this order for Table IIB of section 10.1 (d) of the regulation.

(2) *Exceptions*—(i) *Certain fish imported from Mexico.* For sales of Mexican seabass that you imported into the United States from Mexico you may add to your table price an amount equal to what it would have cost to transport the fish being priced from Nogales, Arizona, to your receiving point by the means of transportation actually used by you, regardless of where the fish actually entered the United States. (Note that section 4.11 (d) of Maximum Price Regulation No. 579 does not apply in this case.)

(ii) *Winter storage.* For sales and deliveries made during the months of September through the following March you may increase the maximum price otherwise applicable, in each case, by the appropriate amount in the following table:

Species	Style of dressing	Month of delivery						
		Sept.	Oct.	Nov.	Dec.	Jan.	Feb.	Mar.
		Cent	*Cent*	*Cent*	*Cent*	*Cents*	*Cents*	*Cents*
Barracuda	All	¼	½	¾	1	1¼	1½	1¾
California halibut	All	0	¼	½	¾	1	1¼	1½

(Note that section 5.13 of Maximum Price Regulation No. 579 does not apply in this case.)

(d) *Incorporation by reference of certain provisions of maximum price regulation No. 579.* To the extent that they are consistent with the provisions of this order, Articles I, IV, and V of Maximum Price Regulation No. 579 are incorporated in this order with the same force and effect as though they were fully set forth herein.

(e) *Price tables.*

This exchange offer will be available to the preferred stockholders for a period of approximately 12 days commencing on or about December 12, 1945 (the anticipated date of the initial public offering) and expiring on or about December 24, 1945.

The proceeds of such sale of bonds, preferred stock and common stock together with general funds of approximately $300,000 are proposed to be used to redeem and retire outstanding bonds and preferred stock of Sioux City as follows:

In connection with this program of refinancing Sioux City proposes to amend its Articles of Incorporation in the following respects: increase its authorized Capital Stock; create a new class of preferred stock known as Cumulative Preferred Stock; eliminate all provisions relating to the outstanding Seven Per Cent Cumulative Preferred Stock upon its redemption and reduce the authorized Capital Stock by the amount of said Seven Per Cent Cumulative Preferred Stock presently authorized; change the par value of the Common Stock from $25 to $12.50 per share and issue two shares of such new Common Stock for each share of the outstanding Common Stock; and make the corporate existence of the company perpetual.

As part of the public offering of the new Common Stock of Sioux City and as part of the same transaction Iowa proposes that there be sold for its account, pursuant to the competitive bidding requirements of Rule U-50 promulgated under the act, the 34,068 shares of Common Stock of Sioux City of the par value of $12.50 per share owned by Iowa, these being the shares to be received by Iowa for its present holdings of the Common Stock of Sioux City in accordance with the proposed split-up of the Common Stock of Sioux City hereinabove set forth. Iowa agrees that it will not exercise any Subscription Warrants to be issued to it as a holder of the Common Stock of Sioux City, and also waives any right which it may have to subscribe to additional shares of the Common Stock of Sioux City proposed to be issued and sold to the public.

Sioux City proposes to call a special meeting of stockholders to be held on or about December 10, 1945 for the purpose of amending its Articles of Incorporation and to consider and vote upon the proposed bond issue, the prior offer by Subscription Warrants of 118,938 shares of new Common Stock of the par value of $12.50 per share to the holders of the Common Stock of Sioux City of the par value of $25.00 per share, and related and incidental matters, and therefore has requested the entry by the Commission of an interim order authorizing the solicitation of proxies in connection therewith pursuant to the requirements of Rule U-62.

The applicants-declarants have designated sections 6 (a), 7, 9, 10 and 12 of the act and Rules U-42, U-43, U-44, U-50 and U-62 as being applicable to the proposed transactions.

It appearing that the solicitation of the authorizations of stockholders, as proposed to be conducted, does not make it necessary or appropriate in the public interest or for the protection of investors or consumers or to prevent the circumvention of the provisions of the act or the rules and regulations thereunder that the Commission issue any order with respect thereto other than an order permitting the declaration as to such solicitation to become effective;

It further appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to other matters set forth in said amended application-declaration and that said amended application-declaration should not be otherwise granted or permitted to become effective except pursuant to further order of this Commission;

It is ordered, That a hearing on said amended application-declaration, except with respect to the hereinabove mentioned solicitation of authorizations of stockholders, under the applicable provisions of said act and the rules of the Commission promulgated thereunder be held at 10:00 a. m., e. s. t., on the 20th day of November 1945, at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pa. On such date, the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in

these proceedings shall file with the Secretary of the Commission on or before November 19, 1945 his request or application therefor as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Charles S. Lobingier, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by such filing, particular attention will be directed at such hearing to the following matters and questions:

1. Whether the securities proposed to be issued and sold by Sioux City are reasonably adapted to the security structure and earning power of Sioux City and are necessary and appropriate to the economical and efficient operation of the business or businesses in which Sioux City is engaged.

2. Whether the terms and conditions of the issue and sale of the securities of Sioux City are detrimental to the public interest or the interest of investors or consumers.

3. Whether the proposed sale by Iowa of its holdings of the common stock of Sioux City is in conformity with the applicable standards of the act.

4. Whether the fees, commissions or other remuneration to be paid in connection with the proposed transactions are for necessary services and are reasonable in amount.

5. Whether the proposed amendments to the Articles of Incorporation of Sioux City with respect to its Common and Preferred Shares will result in an unfair or inequitable distribution of voting power among holders of its securities, or are otherwise detrimental to the public interest or the interest of investors or consumers.

6. Whether it is necessary or appropriate to impose terms or conditions in the public interest or for the protection of investors or consumers in connection with the proposed transactions.

7. Generally, whether, in any respect, the proposed transactions are detrimental to the public interest or to the interest of investors or consumers or will tend to circumvent any provisions of the act or the rules, regulations or orders promulgated thereunder.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order by registered mail to Sioux City Gas and Electric Company, Iowa Public Service Company and the Federal Power Commission, and that notice of said hearing shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935; and that further notice be given to all persons by publication of this order in the FEDERAL REGISTER.

It is further ordered, That, without passing upon the merits of the amended application-declaration filed pursuant to sections 6, 7, 9, 10 and 12, the amended declaration as to the solicitation of authorizations be and it is hereby permitted to become effective forthwith.

By the Commission.

Section 22.1 of Title 6, Code of Federal Regulations, is amended by striking out (c), (d) and (e) thereof and all of the succeeding paragraphs and by substituting in lieu thereof the following:

In the event no appraisal of the property is made, the entire application fee shall be refunded.

On each loan closed exceeding $5,000.00 in amount, an additional fee shall be deducted from the loan proceeds in an amount equal to $1.00 for each $1,000.00 or fraction thereof by which the amount loaned exceeds $5,000.00: *Provided*, That the amount of an additional loan shall be determined by the amount of new money loaned and the additional fee on joint Land Bank and Land Bank Commissioner loans shall be computed on the aggregate amount loaned. PART 249—GRAPEFRUIT JUICE PAYMENT PROGRAM

SUBPART—1944–45

Amendment 1 to the offer of Commodity Credit Corporation to make payments with respect to grapefruit juice derived from the 1944–45 crop of grapefruit.

In order that the "Offer of Commodity Credit Corporation to Make Payments with Respect to Grapefruit Juice Derived from the 1944–45 Crop of Grapefruit," 10 F.R. 7564 (herein called the "Offer"), may reflect more accurately the commitments heretofore made by Commodity Credit Corporation (herein called "Commodity") with respect to the 1944–45 Grapefruit Juice Payment Program, Commodity hereby amends the offer in the manner and to the extent provided in this Amendment 1 to the offer.

1. Section (7) of the offer is hereby amended to read as follows:

(7) *Establishment of seasonal fruit cost.* As soon as practicable after receipt by Commodity of the reports required to be submitted by canners pursuant to (c) and (d) of section (10) hereof, Commodity shall, with respect to each canner and all of such canner's plants in each area, establish, for each such canner and area, a weighted average seasonal delivered cost (herein called "Seasonal Fruit Cost") per ton of grapefruit of the 1944–45 crop delivered, during the period October 1, 1944, to May 31, 1945, both dates inclusive, to such canner's plants in each such area exclusively for processing. Each such Seasonal Fruit Cost shall be established by Commodity on the basis of all such canner's applicable Monthly Fruit Costs for the aforesaid period, weighted according to the total quantity of grapefruit juice canned in such area by such canner during each month of such period, less the respective total quantities of such grapefruit juice which (a) prior to November 10, 1944, such canner had sold and delivered to purchasers other than government procurement agencies, and other than for export, (b) prior to June 1, 1945, such canner had sold and delivered to government procurement agencies and to purchasers for export, and (c) on June 1, 1945, such canner was holding for sale and delivery to government procurement agencies and to purchasers for export: *Provided*, That with respect to each such Monthly Fruit Cost which is in excess of 103 percent of the applicable Monthly Area Fruit Cost, 103 percent of such Monthly Area Fruit Cost, or the applicable maximum cost specified in (a) of section (6) hereof, whichever is the lower, shall be used in lieu of such Monthly Fruit Cost.

2. Section (10) of the offer is hereby amended by deleting therefrom paragraph (c) and inserting, in lieu thereof, the following paragraphs (c) and (d):

(c) Each canner shall, within ten (10) calendar days following the publication of this offer in the FEDERAL REGISTER, and with respect to grapefruit juice produced during each month of the period October 1, 1944, to May 31, 1945, both dates inclusive, mail to Commodity an accurate report stating the respective quantities of such juice (i) which, prior to June 1, 1945, such canner sold and delivered to government procurement agencies, and for export; and (ii) which, on June 1, 1945, were set aside for sale and delivery to government procurement agencies, and for export.

(d) Each canner who, prior to November 10, 1944, sold and delivered grapefruit juice to purchasers other than government procurement agencies, and other than for export, shall, within ten (10) calendar days following the publication of this Amendment 1 in the FEDERAL REGISTER, mail to Commodity an accurate report stating the total quantity of grapefruit juice which such canner sold and delivered, as aforesaid, during each of the following periods:

(i) October 1, 1944, to November 4, 1944, both dates inclusive; and

(ii) November 5, 1944, to November 9, 1944, both dates inclusive.

3. Table V and Table VI, respectively, of Schedule A of the offer are hereby amended by deleting from each such table the figures "28.90" and inserting, in lieu thereof, the figures "27.90".

Persons acting in reliance upon the offer shall do so in accordance with, and subject to, the terms and conditions of the offer, as hereby amended.

NOTE: All reporting and record-keeping requirements of this agreement have been approved by, and subsequent reporting and record-keeping requirements will be subject to the approval of, Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1010—SUSPENSION ORDERS

[Suspension Order 907]

H. K. HUBBARD & CO.

H. K. Hubbard & Company, partnership composed of Josephine Hubbard, Virginia Hubbard Schotters, and Thomas E. Hubbard, is engaged in publishing The Daily Examiner and The Weekly Examiner, Bellefontaine, Ohio. During the years 1943 and 1944 the partnership used or caused to be used in the publishing of these newspapers print paper in excess of its quota as permitted by Limitation Order L–240. These actions constituted grossly negligent violations of Limitation Order L–240. This excessive use of paper has diverted scarce materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.907 *Suspension Order No. S–907.* (a) Josephine Hubbard, Virginia Hubbard Schotters and Thomas E. Hubbard shall reduce their consumption of print paper for the fourth quarter of 1945 by 1⅔ tons less, for each of the first three quarters of 1946 by 2½ tons less and for the fourth quarter of 1946 by 5/6th tons less than the consumption quota of print paper they would otherwise be entitled to use during each of these periods under the provisions of Limitation Order L–240. *Provided*, That, if the partners can reduce their usage under their permitted consumption by ten tons in less than four calendar quarters, they are hereby permitted to do so and may use up to their permitted usage in any quarter after they have made up said ten (10) tons.

(b) Nothing contained in this order shall be deemed to relieve Josephine Hubbard, Virginia Hubbard Schotters, and Thomas E. Hubbard from any restriction, prohibition, or provision contained in any order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(c) The restrictions and prohibitions contained herein shall apply to Josephine Hubbard, Virginia Hubbard Schotters, and Thomas E. Hubbard, doing business as H. K. Hubbard & Company, or under any other name, their successors and assigns or persons acting on their behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

This excessive use of print paper has diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.911 *Suspension Order No. S–911.* (a) The Pulitzer Publishing Company shall reduce its use of newsprint in the publication of its newspaper, the St. Louis Post-Dispatch, during the fourth quarter of 1945 by 130.86 tons less, during each of the first, second and third quarters of 1946 by 196.29 tons per quarter less, and during the fourth quarter of 1946 by 65.43 tons less than it would otherwise be entitled to use during each of these quarters as specified by the provisions of Limitation Order L–240.

If the CPA appeal is granted, requirements of a direction for increases above current production will be suspended until the decision of the Office of Price Administration upon the application for price relief. (e) *Violations and false statements.* Any person who wilfully violates any provision of this order, or any direction under it, or who in connection with this order, or any such direction, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

MAXIMUM PRICES FOR USED COMMERCIAL MOTOR VEHICLES

This compilation of Revised Maximum Price Regulation 341 includes Amdt. 12, effective November 14, 1945. Changes made by Amdt. 12 are indicated by underscoring or notes.

In the judgment of the Price Administrator, prices of used commercial motor vehicles have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942, as amended. The Price Administrator has ascertained and given due consideration to the prices of used commercial motor vehicles prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined to be of general applicability. So far as practicable, the Price Administrator has consulted with and has been advised by representative members of the industry which will be affected by this regulation.

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected.

[Above sentence added by Supplementary Order 70, 8 F.R. 12556, effective 9-11-43]

In the judgment of the Price Administrator, the maximum prices established by this revised regulation are and will be generally fair and equitable and will effectuate the purposes of the act. (1) *Definition of used commercial motor vehicle ("used vehicle").* Used commercial motor vehicle (called used vehicle in this regulation) means

(i) Any self-propelled vehicle, or a vehicle drawn by it, which may be used commercially on and off the highway for the transportation of property or of more than ten persons; or

(ii) Any self-propelled vehicle or a vehicle drawn by it, except a civilian type of passenger automobile, sold to the War Department, Department of the Navy, United States Marine Corps, or the United States Coast Guard; or

(iii) Any chassis or body of a vehicle named in (i) or (ii); which irrespective of mileage has been used other than for the purpose of sale.

This definition covers vehicles of the following types:

(iv) Vehicles primarily designed for civilian use, such as: ambulances, cab pickups, carryall suburbans, combinations consisting of truck bodies and passenger automobile chassis, coupes fitted with pickup boxes, fire trucks, hearses, omnibuses, sedan deliveries, trucks, truck tractors, truck trailers (full and semi) and utility sedans; and

(v) Army general and special purpose vehicles and army special equipment vehicles defined in section 18.

This definition does not cover the following vehicles:

(vi) Civilian passenger automobiles, civilian station wagons having a seating capacity of less than eleven persons, vehicles operated on rails, self-tracklaying vehicles, motorcycles, or farm and garden tractors designed and used for agricultural purposes.

[Subparagraph (1) amended by Am. 1, 8 F.R. 17036, effective 12-23-43; Am. 4, 9 F.R. 7009, effective 6-28 44; and Am. 11, 10 F. R. 12255, effective 10-28-45]

(b) *Geographical applicability.* This regulation applies to the 48 states of the United States and the District of Columbia, and to the territories and possessions of the United States.

SEC. 2. *Prohibition against dealing in used vehicles at prices above the maximum.* (a) On and after August 16, 1943, regardless of any contract or other obligation, except as provided in paragraphs (b), (c) and (d):

(1) No person shall sell or deliver any used vehicle at a price higher than the maximum price permitted by this regulation; and

(2) No person in the course of trade or business shall buy or receive a used vehicle at a price higher than the maximum price permitted by this regulation, but if he, the purchaser, has received from the seller a statement that the price charged does not exceed the maximum price, and he has no knowledge to the contrary, he shall be deemed to have complied with this subparagraph; and

(3) No dealer shall retain payment in excess of the adjusted maximum price where the maximum price has been adjusted downward pursuant to section 5 (b), because of his refusal to make the repairs or replacements required under his warranty; and

(4) No person shall agree, offer or attempt to do any of the acts prescribed in subparagraphs (1), (2) and (3) of this section.

[Paragraph (a) amended by Am. 8, 10 F.R. 6940, effective 6-13-45]

(b) The provisions of paragraph (a) (2) of this section shall not be applicable to any War Procurement Agency or any contracting officer thereof, and any such contracting officer or any paying finance officer shall be relieved of any and every liability, civil or criminal, imposed by this regulation or by the Emergency Price Control Act of 1942, as amended.

(c) Nothing in this regulation shall prevent the fulfilment of any contract for the purchase of a used vehicle whether in the nature of a conditional sales agreement, rental contract providing for purchase, or other arrangement, entered into before April 26, 1943, and under which the used vehicle was delivered prior to April 26, 1943.

(d) Where a promissory note covering payment to a dealer or other seller for a used vehicle is discounted by a bank, finance company, or other person and the latter takes possession of the vehicle after default by the maker of the note, the return of the repossessed used vehicle to the dealer in connection with recovery from him of the unpaid balance of the note does not constitute a sale, purchase, or transfer subject to the regulation. However, the sale of a repossessed used vehicle by such a holder of "used vehicle paper" at public or private sale, except the return of a used vehicle in connection with a contract to repurchase, is subject to the regulation.

SEC. 3. *Relation to other regulations*—(a) *In general.* The transactions, persons, and commodities subject to this regulation shall not be subject to any other regulation issued by the Office of Price Administration in so far as they are affected by this regulation, except as provided in paragraphs (b) and (c).

(b) *Exports.* The provisions of this regulation do not apply to the purchase, sale, or delivery for export from the Continental United States or the District of Columbia of a used vehicle. Such a sale, purchase, or delivery is covered by the Second Revised Maximum Export Price Regulation.[3]

(c) *Imports.* The provisions of this regulation shall not apply to the sale, purchase or delivery of a used vehicle which is not manufactured in, but is imported from, any foreign country other than Mexico or the Dominion of Canada into the continental United States or the District of Columbia. Such a sale, purchase, or delivery is covered by the provisions of the General Maximum Price Regulation[4] and especially its Revised Supplementary Regulation No. 12.

SEC. 4. *Less than maximum prices.* Prices lower than maximum prices established by this regulation may be charged and paid.

ARTICLE II—MAXIMUM PRICES

SEC. 5. *Maximum prices for used vehicles.* Except for special cases provided for in section 9, to figure the maximum price of a used vehicle, the seller must

(a) Find the "base price" according to section 6; and

(b) Multiply such "base price" by the percentage in section 7 (a) applicable to the model year of the vehicle and the condition in which it is sold ("as is" or "warranted"). Before the percentage applicable to a "warranted" vehicle can be used the vehicle must be in the condition required by section 8, the warranty in that section must be furnished in writing to the purchaser, and the sale must be to a purchaser other than a person generally engaged in the business of selling used vehicles.

The inclusion in the maximum price of an additional amount when a used vehicle is warranted is conditioned on the used vehicle being in good operating condition as defined in section 8 (b). If a dealer sells at the warranted maximum price a used vehicle not in good operating condition he makes an overcharge in excess of the permitted maximum price (the as-is maximum price).

The inclusion in the maximum price of an additional amount when a used vehicle is warranted is also conditioned upon the making of repairs or replacements in accordance with the dealer's warranty. If the dealer refuses to make these repairs or replacements, the maximum price for the used vehicle shall be the maximum price for the used vehicle when warranted reduced by 50% of the amount the purchaser would have to pay for the repairing or replacement which the dealer should have made under his warranty, and the dealer shall refund the amount of that reduction to the buyer. Refusal to refund that amount will constitute an overcharge in excess of the maximum price. If upon the dealer's refusal to make repairs or replacements in accordance with his warranty, the purchaser has such work done by another before receiving a refund from the dealer, the actual cost of such work shall be considered the amount by which the maximum price is reduced. For the purposes of this section, failure to make repairs or replacements required by the warranty within a reasonable time from the date the used vehicle is delivered to the place of business of the dealer shall constitute a refusal to make such repairs or replacements regardless of the reasons why they are not made.

[Paragraph (b) amended by Am. 7, 10 F.R. 5457, effective 5-16-45 and Am. 8, 10 F.R. 6940, effective 6-13-45]

SEC. 6. *Computation of "base price".* (a) The "base price" for any used vehicle shall be the sum of

(1) The "value when new" of the vehicle, determined in accordance with paragraph (b) or (c) of this section, whichever is applicable;

[Subparagraph (1) amended by Am. 11, 10 F.R. 12255, effective 10-28-45]

(2) A transportation allowance, determined in accordance with paragraph (c) of this section; and

(3) The "value when new" of any extras, determined in accordance with paragraph (d) of this section.

(b) *Determining "value when new" for vehicles other than Army, Navy, Marine Corps and Coast Guard vehicles.* The "value when new" of a vehicle, or a vehicle chassis or body when sold or priced separately, shall be determined under this paragraph (b) except when the vehicle, including a chassis or body, was sold when new to the War Department, Department of the Navy, Marine Corps or United States Coast Guard. In this latter case the "value when new" shall be determined under paragraph (c). (The "value when new" determined under subparagraph (1) is for a vehicle complete with the customary functional, and non-functional parts and other standard equipment. When a functional or non-functional part or a piece of standard equipment is missing from the vehicle at the time of sale, the "value when new" under subparagraph (1) shall be reduced by the amount of the retail list price for each removed part or piece of equipment when new. If the list price is not ascertainable deduct from the "value when new" of the vehicle an amount which is a reasonable estimate of the retail price of such a part or equipment when new).

[Above paragraph amended by Am. 11, 10 F.R. 12255, effective 10-28-45]

(1) *When the chassis and body are priced as one unit*—(i) *If the chassis and body are listed as one unit (called complete vehicle) in Appendix C.* When the complete vehicle (includes both chassis and body) is listed in Appendix C, the "value when new" is the price listed in that appendix for such a vehicle.

(ii) *Only chassis listed in Appendix C.* If the chassis of the vehicle being priced is listed in Appendix C, and if the complete vehicle is not so listed, the "value when new" shall be the price listed in Appendix C for the chassis alone or the chassis with cab, whichever is appropriate, plus the first applicable of the following:

(*a*) The original retail price when new, f. o. b. factory, (exclusive of transportation costs and taxes) for the body with which the vehicle being priced is now equipped; or

(*b*) If that price is not ascertainable, the retail price new, f. o. b. factory, in effect on March 31, 1942, (exclusive of transportation costs and taxes) for the same or most comparable body.

(iii) *If neither complete vehicle nor chassis alone is listed in Appendix C.* If neither the complete vehicle nor the chassis being priced is listed in Appendix C, the "value when new" shall be determined as follows:

(*a*) If the vehicle being priced was purchased new as a complete vehicle, the "value when new" shall be the original retail price new of the vehicle, f. o. b. factory, (exclusive of transportation costs and taxes) or if that price is not ascertainable, the first applicable of the following: the price listed in Appendix C for the most comparable vehicle of the same year of manufacture; or the price listed in Appendix C for the most comparable vehicle of the nearest year of manufacture.

(*b*) If the chassis and body were bought separately, the "value when new" of the vehicle shall be the sum of the price of the chassis, or chassis with cab, and the price of the body, each determined by one of the following methods:

(*1*) *The chassis, or the chassis with cab.* The original retail price new, f. o. b. factory, (exclusive of transportation costs and taxes) or if that price is not ascertainable, the first applicable of the following: The price listed in Appendix C for the most comparable chassis, or chassis with cab, of the same year of manufacture; or the price listed in Appendix C for the most comparable chassis, or chassis with cab, of the nearest year of manufacture.

(*2*) *The body.* The original retail price new, f. o. b. factory, (exclusive of transportation costs and taxes) or if that price is not ascertainable, the retail price new, f. o. b. factory, (exclusive of transportation costs and taxes) in effect on March 31, 1942, for the same or most comparable body.

(2) *When the chassis, or chassis with cab, and body are sold or priced separately.* If the chassis, or chassis with cab, and body are sold separately, or are priced separately in accordance with sec-

tion 9 (b), the "value when new" shall be determined as follows:

(i) *The chassis or chassis with cab—(a) When listed in Appendix C.* When the chassis, or chassis with cab, is listed in Appendix C, the "value when new" is the price there listed.

(b) *When not listed in Appendix C.* When the chassis, or chassis with cab, is not listed in Appendix C, the "value when new" shall be the original retail price new, f. o. b. factory, (exclusive of transportation costs and taxes) or if that price is not ascertainable, the first applicable of the following: the price listed in Appendix C for the most comparable chassis, or chassis with cab, of the same year of manufacture; or the price listed in Appendix C for the most comparable chassis, or chassis with cab, of the nearest year of manufacture.

(ii) *The body.* The "value when new" of the body shall be the original retail price new, f. o. b. factory, (exclusive of transportation costs and taxes) or if that price is not ascertainable, the retail price when new, f. o. b. factory, in effect on March 31, 1942 (exclusive of transportation costs and taxes) for the same or most comparable body.

[Paragraph (b) amended by Am. 1, 8 F.R. 17036, effective 12-23-43; and Am. 4, 9 F.R. 7009, effective 6-28-44]

(c) *Determining "value when new" of Army, Navy, Marine Corps and Coast Guard vehicles*—(1) *General.* The "value when new" of vehicles sold when new to the War Department, Department of the Navy, Marine Corps or the Coast Guard shall be determined under this paragraph (c). (The term vehicle includes a vehicle consisting of a chassis and body or a chassis or body of a vehicle sold separately).

(2) *Method for determining "value when new."* The "value when new" shall be the dollar amount listed in Appendix G for a vehicle having the same specifications as the vehicle being priced with respect to model year, tonnage rating drive (i. e. 4 x 2, 4 x 4, etc.) body type (i. e. cargo, pickup, etc.) and wheelbase.

If a vehicle having these same specifications as the vehicle being priced does not have a price listed in Appendix G use the price in that Appendix for a vehicle most comparable to the vehicle being priced with respect to these specifications.

In the case of a body sold separately, the "value when new" shall be the original retail price new, f. o. b. factory, (exclusive of transportation costs and taxes) or, if that price is not ascertainable, the retail price when new, f. o. b. factory, (exclusive of transportation costs and taxes) for the most comparable body of the closest model year.

(3) *What "value when new covers."* "Value when new" covers all parts and other equipment present on the vehicle at the time it is sold to the War Department, Department of the Navy, Marine Corps or Coast Guard. When either the Procurement Division, United States Treasury, or the United States Department of Commerce sells a vehicle less a part or other equipment that was on the vehicle when sold new to the War Department, Department of the Navy, Marine Corps or Coast Guard, it shall deduct from the "value when new" of the vehicle, the retail list price for each missing part or piece of removed equipment when new. If the retail list price of a missing part or piece of equipment when new is not ascertainable, deduct from the "value when new" of the vehicle an amount which is a reasonable estimate of the retail price of such part or equipment when new. A reseller of a vehicle from which a part or piece of equipment is missing must make the same deductions in determining the maximum price for such a vehicle.

[Paragraph (c) added and former (c) and (d) redesignated as (d) and (e), respectively, by Am. 11, 10 F.R. 12255, effective 10-28-45]

(d) *Transportation allowance to be included in "base price".* There may be included in the "base price" of a used vehicle, an allowance for transportation determined in accordance with the following subparagraphs:

(1) *Sales within the 48 United States and the District of Columbia.* Upon any sale within the United States and the District of Columbia, the allowance that may be added is the amount based on the rate per hundred weight listed in Appendix D for shipment from the principal place of manufacture of the chassis to the area in which the seller's place of business is located. If applicable rates are not listed in Appendix D, the allowance shall be an amount not to exceed the actual rail freight at carload rates as of March 31, 1942, or at current carload rates, whichever are lower, or $20.00. The carload rates shall be those for a vehicle of the same wheel base, shipping weight (actual or as listed in Appendix C) and over-all size of the vehicle being priced, shipped by the most direct route from the principal place of manufacture of the chassis to the freight station nearest the seller's place of business.

(2) *Sales within a territory or possession of the United States.* Upon any sale occurring in any territory or possession of the United States, the transportation allowance shall be the allowance calculated in accordance with subparagraph (1), from the principal place of manufacture of the chassis to Seattle, Washington, for sales in the Territory of Alaska; to San Francisco, California, for sales in any other territory or possession in the Pacific Ocean; to New York, New York, for sales in any other territory or possession, plus the costs of shipment in each case from such port to the seller's place of business at rates in effect on October 1, 1941.

(3) *Transportation allowances for vehicles which have "values when new" under section 6* (c). For the purpose of determining transportation allowances under this paragraph (d) for vehicles which have "values when new" determined under section 6 (c), Detroit, Michigan, shall be considered as the principal place of manufacture in all cases regardless where the principal places of manufacture actually are.

[Subparagraph (3) added by Am. 11, 10 F.R. 12255, effective 10-28-45]

(e) *Allowance for extras to be included in "base price"*—(1) *When allowances may be included in base price.* This paragraph (e) establishes allowances for extras (defined in section 18 (c)) that may be included in the "base price" permitted by paragraph (a) of section 6. The only extras for which a seller other than a consumer may include allowances in the "base price" are those with which the vehicle was equipped at the time of purchase and which are present on the vehicle at the time it is sold. A consumer may include allowances for extras present on the vehicle at the time he sells it. The amount of the allowances for these extras shall be determined in accordance with subparagraph (2) below.

NOTE: When extras are added by a dealer at the request of a purchaser, or are added in connection with alterations, additions may be added to the maximum price. The amount of the allowances and the circumstances under which they may be added to the maximum price are covered by paragraph (a) of section 9.

[Subparagraph (1) amended by Am. 7, 10 F.R. 5457, effective 5-16-45; and Am. 11, 10 F.R. 12255, effective 10-28-45]

(2) *Method of determining amount of allowance, "value when new", of extras.* The "value when new" of extras shall be the sum of the original retail prices new, or, if such original retail prices new, are not ascertainable, then the current retail prices new in the area in which the vehicle is being sold (not to exceed applicable maximum prices), for the same or most comparable extras. Where an extra has replaced equipment on the used vehicle, the amount to be included in the "base price" for such an extra is the charge which the manufacturer of the vehicle had in effect on March 31, 1942 as an addition to be made to the vehicle list price when such a replacement was made, or if such a charge is not ascertainable, it is the difference between the "value when new" of the extra and the "value when new" of the standard equipment, replaced by this extra or previous extra, which was provided for in the list price of the vehicle when new. The "value when new" of standard equipment shall be determined by using the procedure prescribed in this paragraph for determining the "value when new" of an extra.

[Subparagraph (2) amended by Am. 4, 9 F.R. 7009, effective 6-28-44]

SEC. 7. *Percentage to be used in multiplying "base price" to obtain maximum price*—(a) *For a used vehicle or chassis.* For a used vehicle or used chassis, the percentage to be used during the calendar year 1945 in multiplying the "base price" to obtain the maximum price shall not exceed the percentage stated in the following schedule which is applicable to the model year of the vehicle as determined by the manufacturer and the condition in which the vehicle is sold ("as is" or "warranted").

[Above paragraph amended by Am. 6, 9 F.R. 15059, effective 1-1-45]

[Table amended by Am. 5, 9 F.R. 10641, effective 9-4-44; and Am. 7, 10 F.R. 5457, effective 5-16-45]

Where the manufacturer did not designate a model year for the vehicle when it was new, the year including the date when it was delivered new to the first purchaser for use shall be considered as the model year if such date of delivery can be substantiated by the original bill of sale or original invoice. If the year including the date of delivery cannot be substantiated, then the model year shall be the year of manufacture if substantiated by the motor or serial number, or lacking such data, the year 1934.

(b) *For a body of a used vehicle.* For a body of a used vehicle, the percentage to be used during the calendar year 1945 in multiplying the "base price" to obtain the maximum price shall not exceed the percentage listed in the schedule in paragraph (a) which is applicable to the model year and the condition in which the body is sold ("as is" or "warranted"). SEC. 8. *Warranted used vehicle*—(a) *Definition.* A warranted used vehicle is a used vehicle:

(1) Which is in good operating condition as defined in paragraph (b); and

(2) For which a dealer (as defined in section 18 (b)) furnishes in writing to the purchaser at the time of sale the warranty in paragraph (c); and

(3) In the case of a dealer who does not have a shop and equipment adequate for repairing or reconditioning used vehicles, it shall be a used vehicle which, in addition to satisfying the conditions in (1) and (2), is one for which the service supplier that makes the repairs or replacements for the dealer in accordance with section 18 (b) guarantees in writing the making of the repairs or replacements the dealer is obligated to make under his warranty. The guaranty shall be made in the manner stated in paragraph (d).

(b) *Good operating condition.* A used vehicle is in good operating condition when its functional parts, and those of its non-functional parts which are customarily attached to a used vehicle, are in a condition that will permit the used vehicle to be driven safely and efficiently. Functional parts include, but are not limited to: the chassis, motor, clutch, transmission, drive shaft, differential, steering mechanism, front axle, rear axle, brakes, battery and lighting system.

(c) *Dealer's warranty.* The warranty a dealer shall furnish in writing to a purchaser at the time of sale is:

The used vehicle described below is hereby warranted to be in good operating condition, and to remain in such condition under normal use and service for a period of 30 days after delivery, or 1000 miles, whichever may first occur.

We agree, if said vehicle is delivered during the above period to our place of business, to make with reasonable promptness any repairs or replacements which may be necessary to its good operating condition in accordance with normal use and service at a cost to the purchaser named below of not more than 50% of the normal charge for such repairs and replacements. Our normal charge is not in excess of OPA ceilings.

This warranty does not extend to tires, tubes, paint, glass, upholstery, or to any repairs or replacements made necessary by misuse, negligence or accident.

SEC. 9. *Maximum prices for special cases*—(a) *Maximum price where alterations are made or extras added at purchaser's request or for purpose of attaching a new body to form a complete vehicle.* (1) Where alterations are made or extras added to reconnaissance vehicles, or such changes are made in other vehicles at the request of purchasers, the maximum price applicable to the sale of such vehicles by the dealer after he has made the alterations or installed the extras shall be the sum of subdivisions (i), (ii) and (iii). (No reconditioning operations are covered by (ii) and (iii)).

(i) The maximum price for the vehicle without alterations or such extras, determined in accordance with other provisions of this regulation; and

(ii) Prices for extras (as defined in section 18 (c)) not to exceed maximum prices under applicable maximum price regulations, except that where an extra replaces standard equipment only the difference between the price of the standard equipment removed and the price of the extra may be added; and

[Subparagraph (ii) amended by Am. 11, 10 F.R. 12255, effective 10-28-45]

(iii) Prices for parts, materials, and services supplied in making the alterations, not to exceed their maximum prices under applicable maximum price regulations when supplied by the dealer in the course of an alteration job to a regular customer of the same class of customers.

(2) Where a used chassis is altered, extras added and a new body attached to form a complete vehicle, the dealer's maximum price for such a vehicle shall be the sum of the prices determined for the used chassis in accordance with subdivisions (i), (ii) and (iii) of subparagraph (1), exclusive of reconditioning, plus the maximum price for the new body under the applicable maximum price regulation. Extras added in connection with the installation of a new body do not have to be requested by the purchaser provided they are necessary to the installation of the new body.

[Subparagraphs (1) and (2) amended by Am. 7, 10 F.R. 5457, effective 5-16-45]

(b) *Maximum prices for a used vehicle consisting of a chassis and body of different model years.* Where a used vehicle consists of a chassis and body of different model years, the maximum price for both the chassis and the body may be determined separately in accordance with the applicable provisions of this regulation.

(c) *Maximum prices for a used vehicle to which is attached special equipment.* Where there is attached to a used vehicle special equipment such as mixers, cranes, scoops, shovels, welding machines, compressors, and winches with independent power or other equipment, whose use is not dependent on its attachment to the vehicle, this special

equipment shall be priced separately in accordance with the maximum price regulation that would be applicable if such equipment were not attached to the vehicle, and the used vehicle shall be priced in accordance with the applicable provisions of this regulation.

However, where a heavy duty crane, or shovel, designed and manufactured for construction work and operated by independent power, is mounted on a used vehicle and the price of the crane, or shovel, under Revised Maximum Price Regulation 136, is higher than the price of the used vehicle under this revised regulation, the entire unit shall be priced under Maximum Price Regulation 136, as amended. The prices used in this determination shall be:

(1) *For the crane or shovel.* The maximum price, at the time of the sale of the combination by the present seller.

(2) *For the used vehicle.* The maximum price, at the time of the sale of the combination by the present seller, for the bare used vehicle as though it were standard and without any extras, alterations or other improvements.

[Paragraph (c) amended by Am. 3, 9 F.R. 4396, effective 4-29-44]

(d) *Maximum prices for used vehicles which cannot be priced under other sections of this regulation.* Where a used vehicle cannot be priced under any of the other sections of this regulation because it cannot be identified with any model year, or for any other reason, a maximum price may be established for such a vehicle by the nearest Office of Price Administration regional office, or any district office authorized by a regional office, if the seller furnishes adequate data in writing to that office to indicate the nature of the vehicle, the special circumstances making the other pricing provisions of this regulation inapplicable, the proposed selling price, the costs of the vehicle to the seller, and his proposed margin of profit. The regional or district office to which application is made may approve for such a vehicle a pricing method for establishing a maximum price, or a specified maximum price. If that office does not disapprove the application within thirty days from the date it is received, the proposed price shall be the maximum price. The proposed price may be charged on the mailing of the application and thereafter unless the regional or district office disapproves the application within the thirty-day period, but no payment shall be received until either that office has approved the proposed price or has not disapproved it within the thirty-day period.

ARTICLE III—MISCELLANEOUS

SEC. 10. *Federal and state taxes.* There may be added to the maximum price for any used vehicle the amount of any federal, state and municipal tax upon, or incident to, the sale, delivery, processing or use of such vehicle. However, the amount of such tax must be stated separately on the certificate required by section 13. No taxes on the vehicle or extras when new may be added to, or included in, the maximum price.

[Sec. 10 amended by Am. 1, 8 F.R. 17036, effective 12-23-43]

SEC. 11 *Evasion.* It shall be a violation of this regulation to charge a price above the applicable maximum price in connection with any sale of a used vehicle, either alone or in conjunction with any other consideration even though the price increase appears only indirectly. Specifically, but not exclusively, the seller is not permitted to require the purchaser, as a condition of the sale or transfer of the vehicle, to make payment over a period of time; to require him to finance the purchase through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts, or services so as to increase the total compensation above the maximum price; to require him to purchase any other commodity or service; or to require him to make payment in whole or in part by exchanging, transferring or trading in any other vehicle, product or commodity. Where there is an exchange, transfer or trade-in, in connection with a sale, it is a violation for the seller to give the purchaser an allowance for the vehicle, product or commodity, exchanged, transferred, or traded in, which is less than its reasonable value.

Furthermore, the seller is prohibited from providing for the purchase of the vehicle by a lessee under a rental contract at an agreed valuation which together with the amount paid for the rental is higher than the applicable maximum price at the time the rental contract is entered into, and from making the terms and conditions of sale more onerous to purchasers than they customarily have been except to the extent allowed by this regulation. However, the Office of Price Administration may upon written request grant written permission to any dealer subject to this regulation to change his credit terms, where such change is necessitated by orders issued by, or at the request of, the United States Government.

It shall also be a violation for any person to charge, pay or receive a finder's fee or other compensation in connection with the procurement of a used vehicle where the finder's fee or other compensation plus the purchase price for the used vehicle exceeds the permitted maximum price, except that this prohibition shall not apply to the case of a bona fide employer-employee relationship between a seller generally engaged in the business of selling used vehicles and an employee of the type of employee generally considered by the automotive trade to be a used vehicle salesman.

[Sec. 11 amended by Am. 8, 10 F.R. 6940, effective 6-13-45]

SEC. 12. *Tag to be attached by dealer to vehicle.* Every dealer offering a used vehicle for sale shall attach to it in a conspicuous place a label or tag not smaller than 4" x 8" in the form set forth in Appendix A, on which shall be set forth legibly all of the information called for in Appendix A.

SEC. 13. *Certificate of Transfer that must be completed for a sale of a used vehicle.* Every person when he sells a used vehicle covered by this regulation shall prepare a Certificate of Transfer, Appendix B, in duplicate, in accordance with the instructions in that appendix, sign both copies of the certificate, give one copy to the purchaser at the time of sale, and not later than five days from the date of sale turn in the original copy to his local War Price and Rationing Board.

For the purposes of this section, a trade-in of a used vehicle is a sale, and the person trading in the used vehicle must take the steps required of sellers by this section.

Copies of the Certificate of Transfer may be obtained from sellers generally engaged in the business of selling used vehicles or from local War Price and Rationing Boards.

[Sec. 13 amended by Am. 12, effective 11-14-45]

SEC. 14. *Records and reports.*—(a) *Records.* Every person generally engaged in the business of selling used vehicles shall, so long as this regulation remains in effect, keep and make available for examination by the Office of Price Administration the following information in regard to every used vehicle he has acquired for resale:

(1) A complete description of the used vehicle including make, model year, serial number, motor number, body type and carrying capacity;

(2) The name and address of the person from whom he acquired the used vehicle;

(3) The price he paid for the used vehicle either on an outright basis or on a trade-in;

(4) The cost of repairs and replacements made in the used vehicle and a description of the repairs and replacements made;

(5) The name and address of the person to whom he sold the used vehicle;

(6) The price he charged the purchaser for the used vehicle excluding taxes and finances charges;

(7) The amount he charged the purchaser to cover taxes and the taxes for which the amount was charged;

(8) The amount he charged the purchaser for financing the sale on an installment basis, if any;

(9) A copy of the warranty he furnished the purchaser if he sold the used vehicle at a price higher than the as-is price. Other sellers of used vehicles shall keep and make available for examination by the Office of Price Administration records customarily kept in connection with the sale of a used vehicle.

(b) *Additional records and reports.* Every dealer, or other seller generally engaged in the business of selling used vehicles, shall keep such records in addition to those required by paragraph (a), and file such reports, as the Office of Price Administration may from time to time require. Such records and reports, however, shall be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Sec. 14 amended by Am. 8, 10 F.R. 6940, effective 6-13-45]

SEC. 15. *Enforcement.* (a) Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, proceedings for suspension of licenses, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 16. *Licensing.* The provisions of Licensing Order No. 1,[8] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Sec. 16 amended by Supplementary Order 72, 8 F.R. 13244, effective 10-1-43]

SEC. 17. *Petitions for amendment of general applicability.* Any person seeking a modification of any provision of this regulation may file a petition for an amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[9] issued by the Office of Price Administration.

[Sec. 17 corrected, 8 F.R. 17414, effective 8-16-43]

SEC. 18. *Definitions.* (a) "As-is" refers to a used vehicle for which the highest price that may be charged is the base price permitted by section 6 multiplied by the applicable as-is percentage in section 7.

[Paragraph (a) amended by Am. 8, 10 F.R. 6940, effective 6-13-45]

(b) "Dealer" is a person who has received an order from the Office of Price Administration authorizing him to charge for a warranted used vehicle defined in section 8 a warranted maximum price permitted by section 5, and whose authorization has not been revoked in accordance with paragraph (2) or (5) below.

(1) *Application for dealer authorization*—(i) *Preparation of application form.* A person who seeks authorization to act as a dealer must request this authorization from the Office of Price Administration on OPA Form No. 694-2163, "Application for Authorization to Act as a Dealer in Automotive and Related Vehicles." This form is Appendix E of the regulation. The form will be acceptable as an application only when the information the form requests is inserted in, or attached to, the form, and it is signed by the applicant or his authorized representative.

(ii) *Place of filing.* The application must be filed in the district office of the Office of Price Administration having jurisdiction of the area in which the place of business of the applicant is located. If applicant has a place of business in more than one district office area a separate application must be filed for each place of business with the district office having jurisdiction over the area in which the place of business is located. If the applicant has more than one place of business within one district office area, he shall file one application for the group of businesses in that area.

(iii) *Investigation of application.* Upon receipt of an application for dealer authorization, the authorized district office may make such investigation of the facts involved in the application, hold such conferences, and request the filing of such supplementary information, as may be necessary to the disposition of the application.

(iv) *Disposition of application for dealer authorization by District Director.* The District Director of the district office having jurisdiction over the area in which the applicant's place of business is located shall either grant or deny by order an application for dealer authorization. The requirements that must be present before the grant shall be made are contained in (v) below. If they are not all present the application shall be denied.

(v) *Requirements for grant of application by District Director.* An application for authorization to sell as a dealer shall be granted if;

(*a*) The applicant is generally engaged in the business of acquiring for sale, selling, displaying, repairing and reconditioning used vehicles; and

(*b*) The applicant has a place for selling and displaying used vehicles; and

(*c*) The applicant has a shop and equipment for reconditioning and repairing which in general are adequate for placing used vehicles in good operating condition as defined in section 8 (b) and for fulfilling the terms of the warranty in section 8 (c). (The location of the shop and equipment beyond a reasonable distance from the place of delivery of used vehicles to purchasers, is one of the reasons why such facilities are not adequate); but

(*d*) In the case of an applicant who does not have the facilities described in (*c*) above, as a substitute for them, he may have a working arrangement, evidenced by a written contract, with a service supplier, who has adequate reconditioning and repairing facilities described in (*c*) above, whereby the service supplier will perform the reconditioning and make the replacements the applicant, as a dealer, is required to make to place a used vehicle in good operating condition as defined in section 8 (b) or to fulfill the terms of the warranty in section 8 (c); but

(*e*) Notwithstanding the requirements in (*a*) to (*d*) inclusive, an application for authorization of an owner and operator of any number of commercial motor vehicles shall be granted if such an applicant has an established place of business and a shop and equipment which in general are adequate for the repairing and reconditioning of used vehicles to place them in good operating condition as defined in section 8 (b) and for fulfilling the terms of the warranty in section 8 (c).

(vi) *Publicizing of dealer authorization.* Every person who receives an order authorizing him to sell as a dealer shall place this order in a conspicuous place in his place of business. Such a person shall also state on every Certificate of Transfer he prepares in accordance with the regulation the dealer authorization number which he shall receive in the dealer authorization order.

(2) *Revocation of dealer authorization*—(i) *General.* The District Director of a district office having jurisdiction over the area in which a dealer's place of business is located may by order revoke a dealer's authorization for the reasons stated in (ii) below. However, no order of revocation shall be effective unless the dealer against whom the order is directed was notified by registered mail or by personal service of the District Director's intention to revoke the authorization and the reasons for such action at least ten days prior to the issuance date of the revocation order, and had a reasonable opportunity prior to the issuance of the order to present information either orally or in writing to the District Director, or a responsible official in the district office designated by the District Director, to show that the authorization should not be revoked.

(ii) *Basis for revocation of dealer authorization.* An order granting a dealer authorization may be revoked if the District Director finds from substantial evidence that:

(*a*) Any one of the requirements in (b) (1) (v) was not in existence at the time the applicant filed his application although he represented in his application that the requirement was in existence; or

(*b*) Any one of the requirements in (b) (1) (v) is not in existence after the date of filing of the application; or

(*c*) A person authorized to sell as a dealer does not comply with the provisions of the regulation which permit the charging of a price higher than the maximum as-is price; or

(*d*) Reconditioning and repairing facilities are beyond a reasonable distance from the dealer's place of delivery of used vehicles.

(3) *Request for review*—(i) *General.* Any person generally engaged in the business of selling used vehicles whose application for dealer authorization has been denied, or whose dealer authorization has been revoked, by an authorized District Director of a district office may file with that district office a request for review by the Regional Administrator for the region in which the district office is located. However, where an application for dealer authorization is denied in the first instance or a dealer authorization is revoked by an authorized Regional Administrator the request for review shall be filed with his regional office. The request for review shall be made on OPA Form 694-2350 set out in Appendix F, and shall be filed not later than 60 days after the date on which the order of denial or revocation was mailed. Requests for review shall be deemed filed on the date received by the district office. However, requests for review addressed to the appropriate district office bearing a postmark dated within the 60 days after the date the order of denial or revocation was mailed which are received after the expiration of the 60-day period shall be considered filed within that period.

(ii) *Action on review.* After due consideration, the Regional Administrator

[8] 8 F.R. 13240.
[9] 9 F.R. 10476, 13715.

shall grant or deny the application for dealer authorization or affirm or reverse the order of revocation issued by the District Director. However, where the authorized Regional Administrator denied the application for dealer authorization in the first instance or revoked the dealer authorization, the Administrator shall grant or deny the application for dealer authorization or affirm or reverse the order of revocation. The person whose application has been reviewed or the person who has had the revocation of his dealer authorization reviewed, shall be informed by order of the action taken.

[Subparagraphs (i) and (ii) amended by Am. 10, 10 F.R. 7930, effective 6-27-45]

(iii) *Maximum prices of applicant for dealer authorization or of person whose dealer authorization has been revoked*—(a) *Applicant for dealer authorization.* No applicant for dealer authorization shall charge prices higher than as-is maximum prices unless he is specifically authorized by order to charge maximum warranted prices for warranted used vehicles defined in section 8.

(b) *Person whose dealer authorization has been revoked.* No person whose dealer authorization has been revoked shall charge prices higher than as-is maximum prices unless he is specifically authorized by order to resume charging warranted maximum prices for warranted used vehicles defined in section 8.

[Headnote amended by Am. 12, effective 11-14-45]

(4) *Protest of denial of application for dealer authorization or of revocation of dealer authorization.* When on request for review the Regional Administrator or the Administrator, whoever is applicable, issues an order denying an application for dealer authorization, or affirming a revocation of a dealer authorization, the applicant, or the person whose dealer authorization has been revoked, whoever it may be, may file a protest against such order in accordance with the provisions of Revised Procedural Regulation No. 1. There is no specific statutory limit of time within which protests must be filed. However, if the filing of a protest is unduly delayed, the defense of laches (unreasonable delay) may be available to the Administrator. Where an order is issued denying an application for dealer authorization or revoking a dealer authorization ordinarily there will be no reason why a protest cannot be filed promptly after the order of denial is issued. Accordingly, if a protest is filed more than 90 days after the issuance of the order, the Administrator will ordinarily regard the delay as unreasonable and dismisss the protest unless special circumstances are shown which justify the delay.

[Subparagraph (4) amended by Am. 12, effective 11-14-45]

(5) *Revocation of authorization to sell as dealers in effect prior to August 1, 1945.* Any and all authorizations to sell as dealers which were granted under section 18 (b) prior to its amendment by Amendment 9 either by the wording of that section alone or by its wording and a special authorization issued by the Office of Price Administration are revoked as of August 1, 1945.

[Paragraph (b) amended by Am. 4, 9 F.R. 7009, effective 6-28-44; and Am. 9, 10 F.R. 6952, effective 8-1-45, except as to the filing and processing of applications and the issuance of orders of authorization and denial it became effective June 27, 1945. Effective date provision of Am. 9 amended by Am. 10, 10 F.R. 7930, effective 6-27-45]

(c) "Extra" means any accessory or equipment designed for attachment to the used vehicle when new which is not provided for in the price of such vehicle when new. The term "extra" includes such items as oversized or special tires, special springs, special transmissions, special brakes, optional wheelbase or body frames, heaters, radios, power-take-off winches and other power-take-off equipment. The term "extra" does not include such equipment or any other equipment if it should be present on a vehicle (sold when new to the War Department, Department of the Navy, Marine Corps or Coast Guard) at the time it is sold used by the Procurement Division or Department of Commerce. Neither does the term "extra" include special equipment such as mixers, cranes, scoops, shovels, welding machines, compressors, and winches with independent power, or other equipment having a use not dependent on its attachment to the vehicle.

[Paragraph (c) amended by Am. 7, 10 F.R. 5457, effective 5-16-45; and Am. 11, 10 F.R. 12255, effective 10-28-45]

(d) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(e) "Sale" includes sales, dispositions, exchanges, and other transfers and contracts and offers to do any of the foregoing. It includes conditional sales and sales under rental contracts, lease agreements or other agreements except as excluded by section 2 (c). It also includes transfers by banks, finance companies, or other persons discounting promissory notes following the taking of possession by such persons upon default of the person making such promissory notes except as excluded by section 2 (d). The term "sale" does not refer to the adjustment of losses made in connection with settlements of claims under policies of insurance against fire, theft, collision, other loss of property or other coverage, even though the right of subrogation may be involved. The term "sale", "seller", "selling", "purchase", "purchaser", and "purchasing" shall be construed accordingly.

(f) *"War procurement agency"* includes the War Department, the Department of the Navy, the United States Maritime Commission, the Lend-Lease Section of the Procurement Division of the Treasury Department, and the following subsidiaries of the Reconstruction Finance Corporation, Metals Reserve Corporation, Defense Plant Corporation and Defense Supplies Corporation, or any agency of any of the foregoing.

(g) *"Army general purpose vehicles"* mean all wheeled vehicles intended for movement of personnel, supplies, ammunition, or equipment or towing of guns, trailers, or semi-trailers, and which are used by more than one service.

(h) *"Army special equipment vehicles"* mean wheeled vehicles, the chassis of which are basically identical to those used in general purpose vehicles but which have a special body or special equipment.

(j) *"Army special purpose vehicles"* mean wheeled vehicles, the chassis and body of which are designed for a special purpose. These vehicles do not incorporate body or chassis of either general purpose vehicles or special equipment vehicles.

[Paragraphs (g), (h) and (j) added by Am. 4, 9 F.R. 7009, effective 6-28-44]

(vi) No person having a quota under subdivisions (i) or (ii) shall move carload lots from outside such area to its branch houses, subsidiaries, or financial affiliates located within such area, in excess of 75 percent of the total volume by weight so moved to its branch houses, subsidiaries, or financial affiliates during its quota base period. All such movements shall be charged against the quota.

(vii) Any person having a quota under foregoing subdivisions (i) or (ii) shall not move carload lots from outside the area to a consignee within the area other than a branch house, subsidiary or financial affiliate unless he first shall ascertain that such consignee has an unfilled quota under foregoing subdivisions (iii) or (iv) permitting such movement. All such transactions shall be charged against both quotas.

(viii) The first current quarterly period during which the quota provisions hereinbefore specified shall be operative begins as of October 1, 1945: *Provided*, That regardless of the total volume by weight moved into the said area during the period of from October 1, 1945, through November 9, 1945, nevertheless two-thirds of any quota hereinbefore authorized may be moved into such area during the period of from November 10, 1945, through December 31, 1945.

In the event any person claiming a quota under the above-cited subdivisions fails to file any quarterly report as therein required, his right to operate under such quota shall be prohibited until the required quarterly report is made.

(c) Any person subject to the provisions of paragraph (b) of this section who violates any applicable provision of said paragraph (b) shall be subject to the penalties for violation provided by law, and in addition, may be prohibited by administrative suspension order from receiving, selling, using or otherwise disposing of dressed hogs and/or wholesale pork cuts. § 8314.5 *Estimates.* Federal Security Agency in consultation with the disposal agencies shall prepare estimates and submit recommendations to the Surplus Property Administrator from time to time regarding the quantities and types of surplus property which should be reserved for disposal to nonprofit institutions and instrumentalities during specific future periods of time and the general areas for which such property should be held in reserve.

§ 8314.6 *Criteria.* Federal Security Agency shall develop criteria by which to determine legitimate needs of nonprofit institutions and instrumentalities which apply for surplus property under this part. Federal Security Agency shall submit such criteria for the approval of the Surplus Property Administrator.

§ 8314.7 *Review of applications.* Federal Security Agency shall establish with the approval of the Surplus Property Administrator procedures under which applications by or for nonprofit institutions and instrumentalities under this part will be submitted to and reviewed by Federal Security Agency. Such procedures shall also provide for action to be taken on the application following its review. § 8314.8 *Disposals*—(a) *Acquisition at fair value.* Any nonprofit institution whose application is approved by Federal Security Agency, or on appeal by the Surplus Property Administrator, shall be entitled to acquire from disposal agencies any surplus property available for disposal, at the fair value of such property and in lots not smaller than the smallest lots consistent with commercial practice. Property already advertised for public competitive bids or for sale at auction or for immediate purchase at a fixed time, and property specifically selected by a prospective purchaser, shall not be considered available. Orders from nonprofit institutions shall not be filled out of property reserved for Government agencies and State and local governments and their instrumentalities under § 8302.5.[3] Nothing herein shall impair the rights of States or their political subdivisions or instrumentalities to acquire property pursuant to Part 8302,[2] nor impair the priority granted by section 13 (f) of the act.

§ 8314.9 *Prices*—(a) *Fair value.* The fair value at which surplus property shall be disposed of hereunder shall be the same value as established for disposals to Government agencies and State and local governments under Part 8302.[2] Such fair value shall not be greater than the lowest price which is offered to any trade level at the time of acquisition by the nonprofit institution or instrumentality.

(b) *Discounts to educational and public-health institutions and instrumentalities.* Disposal agencies shall allow from the fair value of property as set forth in paragraph (a) a discount of forty (40) percent upon orders by or for educational or public-health institutions or instrumentalities based upon applications approved as provided in § 8314.7.

§ 8314.10 *Certificate of need and use.* Each application to Federal Security Agency by or for a nonprofit institution or an instrumentality eligible for the benefits of this part shall bear a certificate by a responsible officer thereof that the property sought by the applicant is required for its own use to fill an existing need of the applicant and that it will not be resold to others within three (3) years of the date of purchase without the consent in writing of the disposal agency.

§ 8314.11 *Notices of offering.* Disposal agencies shall in cooperation with Federal Security Agency adopt procedures which will allow nonprofit institutions and instrumentalities to receive notices of what surplus property is available or offered for sale within the area in which the offering is made. Nonprofit institutions and instrumentalities shall have the right upon request to be put on mailing lists in all cases where such lists are used to offer property for disposal, including mailing lists otherwise reserved for special classes of buyers, unless the disposal agency shall find that the giving of such notices to nonprofit institutions and instrumentalities shall for any particular type of property become impracticable, unduly expensive to the Government, or unreasonably burdensome upon the facilities of the disposal agency. When public advertising is used as the method of offering, no other notice need be given to nonprofit institutions or instrumentalities.

§ 8314.12 *Regulations by disposal agencies to be filed with the Surplus Property Administrator.* Each disposal agency, the Federal Security Agency, the United States Office of Education, and the United States Public Health Service shall file with the Surplus Property Administrator copies of all regulations, orders, and instructions of general applicability which they may issue in furtherance of the provisions, or any of them, of this part.

§ 8314.13 *Records and reports.* Each disposal agency shall prepare and maintain such records as will show full compliance with the provisions of this part and with the applicable provisions of the act. Reports shall be prepared and filed with the Surplus Property Administrator in such manner as may be specified by the Administrator by order hereunder subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

This part shall become effective November 6, 1945.

MANTLE LAMP CO. OF AMERICA

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 13 and 14 of Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's maximum prices.* Mantle Lamp Company of America, 223 W. Jackson Boulevard, Chicago 11, Illinois, may increase by no more than 21 per cent, its existing maximum prices to each class of purchaser, for portable electric lamps and shades of its manufacture.

(b) *Maximum prices of purchasers for resale.* Purchasers for resale of portable electric lamps and shades which the manufacturer has sold at adjusted maximum prices permitted by paragraph (a) above, shall determine their adjusted maximum prices as follows:

(1) *Jobbers.* Jobbers shall determine their maximum prices in accordance with the provisions of Section 4.5 of Revised Supplementary Regulation 14J, using their actual invoice prices as their costs.

(2) *Retailers subject to Maximum Price Regulation 580.* A retailer who must determine his maximum prices under Maximum Price Regulation 580 by the use of a pricing chart, shall compute his maximum prices in the manner provided by that regulation.

(3) *Other purchasers for resale.* (i) A purchaser for resale who must determine his maximum prices under the General Maximum Price Regulation, and who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable article", contained in § 1499.3 (a) of that regulation, except that it need not be currently offered for sale, shall find his ceiling prices according to the method and procedure set forth in that section using as his "cost" his invoice cost.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his maximum price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(ii) If a purchaser for resale cannot determine his maximum price under any of the above methods, he shall apply to the Office of Price Administration for the establishment of his maximum price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances and other price differentials on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale showing a price adjusted in accordance with the terms of this order, the seller shall notify such purchaser in writing of the methods established in section (b) for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 133, it is ordered:

(a) *Manufacturer's maximum prices.* Davidson Manufacturing Corporation of 1020 West Adams Street, Chicago, Illinois, may sell and deliver the office machine parts which it manufactures and which are described in its application dated May 29, 1945, at prices no higher than the maximum prices for those articles in effect immediately prior to the issuance of this order plus a charge equal to 13.1% of each such maximum price.

The maximum prices of the manufacturer are subject to its customary terms, discounts, allowances and other price differentials in effect during March 1942 on sales to each class of purchaser.

(b) *Maximum prices of purchasers for resale.* This paragraph sets forth the methods by which persons purchasing the articles referred to in paragraph (a) shall determine their maximum prices.

(1) If the purchaser for resale has already established his maximum prices under the General Maximum Price Regulation for his resales of these articles prior to the issuance of this order, he may increase such maximum prices by 13.1%.

(2) If the purchaser for resale had not established his maximum prices for his resales of these articles prior to the issuance of this order, he shall proceed to do so, and may increase the maximum prices established under § 1499.2 of the General Maximum Price Regulation by 13.1%. However, if the applicable pricing provision of the General Maximum Price Regulation is § 1499.3 (a) which requires his maximum prices to be computed on the basis of cost, the reseller shall use the actual invoice price to him as his cost, and the price so computed shall not be increased in any amount. Maximum prices established under § 1499.3 (c) of that regulation, if that is the applicable pricing provision, will reflect the supplier's maximum prices as adjusted under this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's customary terms, discounts, allowances and other price differentials on sales to each class of purchaser.

(d) *Notification.* At the time of, or before the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the manufacturer shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the article covered by this order. The maximum prices of the manufacturer, as adjusted, are subject to its customary terms, discounts, allowances and other price differentials in effect during March, 1942 on sales to each class of purchaser.

(b) *Maximum prices of purchasers for resale.* This paragraph sets forth the methods by which persons purchasing the articles referred to in paragraph (a) shall determine their maximum resale prices.

AMERICAN WATER WORKS AND ELECTRIC CO., INC.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 9th day of November, A. D. 1945.

Notice is hereby given that an application and declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by American Water Works and Electric Company, Incorporated ("American"), a registered holding company.

All interested persons are referred to the said document which is on file in the office of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

American proposes to issue and sell to commercial banks (not designated in the filing) $12,000,000 principal amount of promissory notes, to be dated as of the date of issue, bearing interest at the rate of 1¾% per annum, to mature two years from their date. At the option of the company, with the approval of this Commission, the maturity date might be extended up to three years, with certain yearly increases in interest charges. The notes will be prepayable without premium, unless prepayment is made out of monies borrowed at a lower interest rate, in which event a premium of ½ of 1% of the amount prepaid would be charged. The company proposes to utilize the proceeds of such notes ($12,000,000), together with treasury funds to the extent required, to call for redemption and retire all of American's outstanding debt, consisting of: 6% Gold Debenture Bonds, Series A, due November 1, 1975, in the principal amount of $8,000,000, redeemable at 110% of principal amount and accrued interest; 5% Gold Debenture Bonds, Series B, due December 1, 1975, in the principal amount of $3,000,000, redeemable at 105% of principal amount and accrued interest; and a $2,500,000 indebtedness on notes payable to commercial banks due April 23, 1946, payable at principal amount and accrued interest. Expenses of the proposed refinancing are estimated at $5,000. No finder's fee, or other fee, commission or remuneration is to be paid for negotiating the bank loan.

The company states that completion of the proposed transactions will result in annual interest savings of at least $470,000, and estimates that redemption of its debentures during the year 1945 will result in a tax saving in excess of $1,000,000.

American also applies for a limited exemption from the provisions of Rule U-45, to the extent necessary to permit the company to retain for itself all of the savings in Federal taxes on income arising from the proposed redemption of its debentures.

The company has designated sections 6, 7 and 12 (b) of the act, and Rule U-45 promulgated thereunder, as applicable to the proposed transactions. It considers the proposed redemption of debentures and payment of bank loans exempt under paragraph (b) (2) of Rule U-42, and the proposed issuance of promissory notes exempt from the competitive bidding requirements of Rule U-50 by reason of paragraph (a) (2) thereof.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application and declaration, and that said application and declaration should not be granted or permitted to become effective except pursuant to further order of this Commission;

It is ordered, That a hearing on said application and declaration under the applicable provisions of the Act and Rules of the Commission thereunder be held on November 26, 1945, at 10:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk will advise as to the room in which such hearing will be held.

It is further ordered, That Willis E. Monty, or any other officer or officers of this Commission designated by it for that purpose, shall preside at the hearings on such matters. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said application and declaration, particular attention be directed at said hearing to the following matters and questions:

1. Whether the notes proposed to be issued will be reasonably adapted to the security structure and earning power of American and necessary and appropriate to the economical and efficient operation of the business in which American is presently engaged;

2. Whether the fees, commissions, or other remuneration to be paid in connection with the issue and sale of said notes are reasonable;

3. Whether the terms and conditions of said notes are detrimental to the public interest or the interest of investors and consumers;

4. Whether the accounting entries to be recorded in connection with the proposed transactions are proper and conform with sound and accepted principles of accounting under the standards of the act;

5. Whether the requested exemption from the provisions of Rule U-45 is appropriate in the public interest and in the interests of investors and consumers;

6. Generally, whether the proposed transactions comply with all the applicable provisions and requirements of the Act and Rules and Regulations promulgated thereunder and whether it is necessary or appropriate in the public interest or for the protection of investors and consumers to impose terms and conditions in respect thereof.

It is further ordered, That notice of this hearing is hereby given to American and to all interested persons, said notice to be given to American and to all other persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on the mailing list for releases issued under the Public Utility Holding Company Act of 1935 and by publication of a copy of this notice and order in the FEDERAL REGISTER.

It is requested that any person desiring to be heard in these proceedings shall file with the Secretary of the Commission on or before November 23, 1945 an appropriate request or application to be heard, as provided by Rule XVII of the Commission's rules of practice.

By the Commission.

PROCLAMATION 2673

THANKSGIVING DAY, 1945

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

In this year of our victory, absolute and final, over German fascism and Japanese militarism; in this time of peace so long awaited, which we are determined with all the United Nations to make permanent; on this day of our abundance, strength, and achievement; let us give thanks to Almighty Providence for these exceeding blessings.

We have won them with the courage and the blood of our soldiers, sailors, and airmen. We have won them by the sweat and ingenuity of our workers, farmers, engineers, and industrialists. We have won them with the devotion of our women and children. We have bought them with the treasure of our rich land. But above all we have won them because we cherish freedom beyond riches and even more than life itself.

We give thanks with the humility of free men, each knowing it was the might of no one arm but of all together by which we were saved. Liberty knows no race, creed, or class in our country or in the world. In unity we found our first weapon, for without it, both here and abroad, we were doomed. None have known this better than our very gallant dead, none better than their comrade, Franklin Delano Roosevelt. Our thanksgiving has the humility of our deep mourning for them, our vast gratitude to them.

Triumph over the enemy has not dispelled every difficulty. Many vital and far-reaching decisions await us as we strive for a just and enduring peace. We will not fail if we preserve, in our own land and throughout the world, that same devotion to the essential freedoms and rights of mankind which sustained us throughout the war and brought us final victory.

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, in consonance with the joint resolution of Congress approved December 26, 1941, do hereby proclaim Thursday November 22, 1945, as a day of national thanksgiving. May we on that day, in our homes and in our places of worship, individually and as groups, express our humble thanks to Almighty God for the abundance of our blessings and may we on that occasion rededicate ourselves to those high principles of citizenship for which so many splendid Americans have recently given all.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the city of Washington this 12th day of November, in the year of our Lord one thousand nine hundred forty-five and of the Independence of the United States of America the one hundred and seventieth.

[SEAL]

HARRY S. TRUMAN

1. Owning agencies shall declare surplus personal property located within the continental United States, its territories and possessions and Pacific insular possessions, to the appropriate disposal agency, designated under this part, on Form SPB–1, *Declaration of Surplus Personal Property to Disposal Agency*, as attached hereto, in accordance with the instructions accompanying such form. Where the owning agency also acts as the disposal agency, the same procedure shall be followed. Owning agencies shall transmit to the Surplus Property Administrator, one copy of each SPB–1, in which property having a total cost of $50,000 or more is listed simultaneously with the transmittal of copies of Form SPB–1 to the disposal agency. Corrections or withdrawals of prior declarations of surplus personal property shall be submitted to the appropriate disposal agency on Form SPB–1.1, *Adjustment of Prior Declaration of Surplus Personal Property*, as attached hereto, in accordance with the instructions accompanying such form. Owning agencies shall transmit to the Surplus Property Administrator, one copy of each correction or withdrawal of a declaration on Form SPB–1.1 which involves a total cost (appearing in Block 10) amounting to $50,000 or more, simultaneously with the transmittal of copies to the disposal agency. Disposal agencies are authorized to correct or adjust a declaration on Form SPB–1 after verification of the declaration and inspection of the property. When the disposal agency makes such correction or adjustment without the submission by the owning agency of a Form SPB–1.1 covering such correction or adjustment, the submission of such Form SPB–1.1 by the owning agency shall not be required.

2. Each owning agency shall declare such personal property surplus to the Surplus Property Administrator on Revised Form SPB–2, *Declarations of Surplus Personal Property to Surplus Property Board*, as attached hereto, in accordance with the instructions accompanying such form.

3. Owning agencies shall declare surplus real property located within the continental United States, its territories and possessions, to the Surplus Property Administrator on Form SPB–5, *Declaration of Surplus Real Property to the Surplus Property Board*, as attached hereto, in accordance with the instructions accompanying such form.

4. Forms SPB–1 and SPB–1.1 should allow for a 1" margin on the left. Form SPB–1.1 should be reproduced on yellow paper so as to distinguish it readily from Form SPB–1.

5. [Deleted Sept. 25, 1945.]

6. Form SPB–1.2, *Declaration of Surplus Property to Disposal Agency*, as attached hereto, may be used by the War Department and the Navy Department as a substitute for Form SPB–1 in declaring to the Reconstruction Finance Corporation surplus property located within the continental United States, its territories and possessions, resulting from contractor inventory. Form SPB–1.3, *Listing Sheet*, as attached hereto, may be used as the detailed listing sheet in support of Form SPB–1.2, as a substitute for Form SPB–1, "Continuation Sheet". Forms SPB–1.2 and SPB–1.3 will be prepared in accordance with the instructions attached thereto.

7. The Reconstruction Finance Corporation is authorized to correct or adjust a declaration previously made on SPB–1.2 and SPB–1.3 by the War Department or the Navy Department to conform to the property thereafter delivered to or upon the order of the Reconstruction Finance Corporation. When the Reconstruction Finance Corporation makes such correction or adjustment without the submission by the owning agency of a Form SPB–1.1 covering such correction or adjustment, the submission of such Form SPB–1.1 may be omitted.

8. In making declarations of government-owned personal property furnished contractors under a facilities contract, lease, rental agreement, or other contract or contract provision specifically governing the acquisition, use or disposition of such property, the Navy

A one line description shall be shown on Form SPB–1 and continuation sheets for each Navy Department Form S & A 269 attached, and there shall be included on both the Form SPB–1 and the Navy Department Form S & A 269 a proper cross-reference to identify each Navy Department Form S & A 269 with the related one line listing on Form SPB–1. Not more than ninety-nine Navy Department Forms S & A 269 or Office of Contract Settlement Forms 5a shall be attached to a single covering Form SPB–1.

9. In making declarations of government-owned personal property located in government-owned plants operated by contractors under cost-plus-a-fixed-fee contracts, the War Department may use existing records including inventory listings and inventory cards, provided that a Form SPB–1 or Form SPB–1.2 is used as a cover sheet and provided further that all of the information required by the Form SPB–1 or Form SPB–1.2 is shown either on the Form SPB–1 or Form SPB–1.2 or on the supporting documents.

PART 8305—SURPLUS NONINDUSTRIAL REAL PROPERTY

AUTHORITY TO DISPOSAL AGENCY TO DISPOSE OF WEATHER BUREAU PROPERTY LOCATED ON CAMPUS OF NORWICH UNIVERSITY, NORTHFIELD, VERMONT, IN CONSIDERATION OF BENEFITS AFFORDED BY UNIVERSITY TO THE UNITED STATES

The Federal Works Agency has for disposal a tract of land consisting of 1.26 acres together with a two-story brick building thereon, located on the campus of Norwich University, Northfield, Vermont, which the University desires to acquire.

It is represented that Norwich University was founded in 1819, and is by statute "the Military College of the State of Vermont", and is a non-profit institution exempt from taxation under section 101 (6) of the Internal Revenue Code; that it conveyed this land to the United States in 1909 without compensation, and the Government has thus had the use of the land without consideration from that date to the present time. The Government erected thereon at a cost of approximately $13,000 a brick building for use as a Weather Bureau and has since used it for that purpose at an expense for operation exceeding $1,000 per year. The University proposes that it will operate the Weather Bureau free of cost or expense to the Government for a minimum period of ten (10) years, affording the Government the full service and benefit thereof to the same extent as when operated by the Government; and the University requests that this property be transferred to it without a cash payment and in consideration of its obligation to maintain and operate the Weather Bureau for said period, and afford the Government the benefits referred to.

The building, which has been in use for more than thirty-five (35) years, has been subject to normal depreciation; and the Federal Works Agency considers that the benefits to the United States, amounting to at least $1,000 per year for a period of ten (10) years, will exceed the current market value of the property, and that, in view of such benefits to the United States and under the provisions of section 13 (a) (1) (C) of the Surplus Property Act of 1944, and § 8305.12 (h) (5) of Surplus Property Administration Regulation 5, it may properly dispose of this property to Norwich University without a cash consideration and in consideration only of its obligation to maintain and operate the Weather Bureau without charge to the United States for a minimum period of ten (10) years; *It is therefore ordered*, That:

Notwithstanding the provisions of §§ 8305.11 (d) and 8305.12 (c), (d) and (e), the Federal Works Agency, as disposal agency, after having given public notice of availability in a newspaper published or having general circulation in the county in which the property is located for a period of ten (10) days, is hereby authorized, in the absence of an acceptable offer to purchase by any priority holder, to convey said property to Norwich University without a cash payment and in consideration of its obligation to maintain and operate said property as a Weather Bureau for a minimum period of ten (10) years, and during said period to afford the Government full service and benefit thereof to the same extent as when the Weather Bureau was operated by the Government. Such conveyance shall be made subject to the right of reversion to the United States in the event of failure by Norwich University to provide the service in compliance with said obligation.

This order shall become effective November 9, 1945.

W. STUART SYMINGTON,
Administrator.

Bureau of Internal Revenue.

RELIEF FROM EXCESS PROFITS TAX BECAUSE OF AN INADEQUATE EXCESS PROFITS CREDIT

ALLOWANCES DURING FISCAL YEAR ENDED JUNE 30, 1945

Subchapter E of Chapter 2 of the Internal Revenue Code imposes an excess profits tax on corporations for taxable years beginning after December 31, 1939. Under the provisions of this subchapter, excess profits are measured by comparing the earnings for the current taxable year with a statutory excess profits credit.

Section 722 of Subchapter E reflects the recognition by Congress of the desirability and necessity of granting relief in meritorious cases to corporations which bear an excessive tax burden because of an inadequate excess profits credit. This section provides for the recomputation of excess profits tax on the basis of a reconstructed excess profits credit.

As required by section 722 (g) the following list, containing the cases arranged alphabetically by internal revenue districts, shows the name and address of each corporation to which relief has been allowed, business, taxable years involved, excess profits credit before allowance of relief, increase in excess profits credit claimed, increase in excess profits credit allowed, decrease in excess profits tax, and increase in income tax. There are included as a supplement to this list eight cases in which relief was allowed by the Commissioner during the fiscal year ended June 30, 1944. These cases were not included in the list of allowances made during the fiscal year 1944 previously published. Allowance by The Tax Court of the United States, has been made in two cases, which cases are included in the list, with appropriate notations.

In order to determine the relief granted and the relevant data required to be published, intermediate computations of the excess profits tax and the income tax showing the amounts of taxes which would have been due without the benefits of section 722 were made. Comparison of the pertinent items and figures appearing in the application for relief and the tax computations after the allowance of relief with those appearing in the intermediate tax computations developed the required data.

Explanations of certain of the items, as displayed in their respective column headings of the list, and the data evolved, follow:

Business in which engaged, Column 2. The business in which taxpayer is engaged is that reported in the income tax return of the corporation for the taxable year or years involved, therefore, it does not necessarily correspond with the business during the base period. In those instances where the return for the year involved failed to disclose the nature of business, information from other sources was utilized. Moreover, since the nature of business shown usually represents a general description of the predominant business activity, it does not necessarily represent or reflect the business activity with respect to which an inadequate excess profits credit was established.

Excess profits credit before allowance of relief, Column 4. The excess profits credit before allowance of relief is the credit originally claimed by the taxpayer, as corrected, whether based on income or capital.

Increase in the amount of excess profits credit claimed by taxpayer, Column 5. The increase in the amount of excess profits credit claimed by taxpayer is the excess of the credit based on the constructive income claimed by the taxpayer over the credit before allowance of relief shown in column 4.

Increase in the amount of excess profits credit allowed, Column 6. The increase in the amount of excess profits credit allowed is the excess of the recomputed credit based on constructive income finally allowed over the credit before allowance of relief shown in column 4.

Gross reduction in the excess profits tax, Column 7; gross increase in the income tax, Column 8. The gross reduction in the excess profits tax and the gross increase in the income tax resulting from the operation of section 722 are the differences between the gross taxes which would have been due without the benefits of section 722 and the gross taxes due after relief had been granted. The gross excess profits tax is the tax due prior to the deferment under section 710 (a) (5), the foreign tax credit under section 729, the credit for debt retirement under section 783, and the adjustment under section 734. The gross income tax is the tax due prior to the foreign tax credit under section 131.

The changes in the income and excess profits taxes shown reflect the effect of the increases attributable to section 722 in the unused excess profits credit carried forward from prior taxable years as well as the effect of the increase in unused excess profits credit carried back from subsequent taxable years to the extent that claims with respect to unused credit carry-overs and carry-backs determined under section 722 were allowed within the same fiscal year.

While the decrease in excess profits tax is directly related to the increase in excess profits credit allowed, a number of factors serve to invalidate a comparison of the relationship of these two items applicable to a corporation for different taxable years or to different corporations for the same taxable year. Among the most important factors affecting this comparison are (1) increase in excess profits tax rates, (2) changes in rate structure from a graduated to a flat rate system, (3) effect of unused excess profits credits of prior and subsequent years attributable to section 722, (4) variation of provisions applicable to fiscal years, (5) limitation of excess profits tax to the amount by which 80 percent of net income exceeds the income tax, applicable to certain taxable years, and (6) relation of excess profits before the application of section 722 to the increase in excess profits credit allowed.

For taxable years beginning after December 31, 1940, a portion of the amount by which the excess profits tax is reduced by reason of the application of section 722 is offset by an increase in income tax. This offset arises from the provisions which permit the deduction of the income subject to excess profits tax (or excess profits tax in certain taxable years) in arriving at income subject to income tax.

Lists containing the cases in which relief has been allowed during the fiscal years ended June 30, 1942 and June 30, 1943, have been published in the FEDERAL REGISTER, Volume 9, Number 194, dated September 28, 1944 and a similar list relating to allowance made during the fiscal year ended June 30, 1944, has been published in the FEDERAL REGISTER, Volume 9, Number 219, dated November 2, 1944.

[Gen. Order 68, Order 1]

STOCK MILLWORK IN WASHINGTON, D. C., AREA

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the provisions of General Order No. 68, it is ordered:

SECTION 1. *What this order covers.* This order covers all sales of stock millwork at the retail level made by any seller located in the Washington, D. C., trading area consisting of the District of Columbia and those portions of the States of Maryland and Virginia located within 20 miles of the zero mileage stone in Washington, D. C. (at the Treasury Building).

SEC. 2. *Definition of retail level.* By retail level is meant a sale to the consumer or to a contractor for installation rather than resale. It includes the type of sale referred to in the trade as "contract sale" wherein the seller provides his own take off from plans and specifications, quotes a flat price, and guarantees enough material to complete the job.

SEC. 3. *Definition of stock millwork.* "Stock millwork" as covered by this order refers to such standard woodwork items as listed below as well as to any item which can be priced as stock millwork in the following regulations: MPR 44, Douglas Fir Doors; RMPR 293, Stock Millwork; and MPR 589, Douglas Fir Stock Millwork.

(a) Panel doors.
(b) Sash doors.
(c) Glazed windows.
(d) Frames (windows, door or cellar).
(e) Window screens.
(f) Sash.
(g) Garage doors.
(h) Blind or shutter doors.
(i) Cupboard doors.

Where items are specifically priced by sizes, any size of the item not listed and not carried in stock, and which cannot be purchased from the stock of a jobber or manufacturer and, further, which is made by a specialty millwork plant whose normal production, as measured by the calendar year 1941, is not more than 25% of stock items, may be priced as Special Millwork under the General Maximum Price Regulation at the March 1942 level.

SEC. 4. *Maximum prices.* The base maximum prices for stock millwork are set forth in Tables 1 through 14 in the appendix which are annexed to and made a part of this order. The base maximum prices are subject to discounts based on the dollar volume of the order as follows:

DISCOUNTS FOR STOCK MILLWORK

For sales of stock millwork in quantities up to $50—use base price.
For sales of stock millwork in quantities from $50 to $150—less 3%.
For sales of stock millwork in quantities from $150 to $500—less 6%.
For sales of stock millwork in quantities from $500 to $1,500—less 10%.
For sales of stock millwork in quantities from $1,500 to $5,000—less 13%.
For sales of stock millwork in quantities from $5,000 and over—less 16%.

In applying these discounts the total size of the order of millwork and related items determines the discount to be applied.

The prices provided herein are the maximum which may be charged for the stock items shown whether purchased from other manufacturers, jobbers, or self-produced. Prices lower than the maximum may, of course, be charged. Any seller may quote on a contract basis, wherein he takes off quantities from blueprints and guarantees sufficient material to finish the job, without violating this order provided he maintains records showing how he arrived at his estimate and that the estimate was based on prices permitted by this order as well as any other applicable regulation. If quotations are made on a contract basis, however, and the quantity of stock millwork actually furnished is valued at less than the contract price, the maximum charge which may be made is the total of the maximum prices for the items actually furnished and not the contract price.

[SO 119, Order 14]

JOHN B. SALTERINI CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Sections 13 and 14 of Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's maximum prices.* John B. Salterini Company, 510–14 East 72nd Street, New York, New York, may increase by no more than 19.8% its ceiling prices to each class of purchaser for the artistic iron furniture which it manufactures.

(b) *Maximum prices of purchasers for resale.* Purchasers for resale of any article which the manufacturer sells at an adjusted price permitted by this order shall determine their maximum resale prices in the following manner:

(1) A retailer who must determine his ceiling prices under Maximum Price Regulation No. 580 by the use of a pricing chart shall compute his ceiling prices in the manner provided by that regulation.

(2) A wholesaler who must determine his ceiling prices under Maximum Price Regulation No. 590 shall find his ceiling price in the manner provided by that regulation.

(3) A purchaser for resale who must determine his maximum prices under the General Maximum Price Regulation, and who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable article" contained in § 1499.3 (a) of that regulation, except that it need not be currently offered for sale, shall find his ceiling prices according to the method and procedure set forth in that section using as his "cost" his invoice cost.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(4) If a purchaser for resale cannot determine his ceiling price under any of the above methods, he shall apply to the Office of Price Administration for the establishment of his ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances, on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) All requests not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 14th day of November 1945.

Issued this 13th day of November 1945.

Administrator.

Order 1 under Maximum Price Regulation No. 592 is amended in the following respects:

Section 4.4 is amended to read as follows:

SEC. 4.4 *Modification of maximum prices of ready-mixed concrete.* The manufacturer's maximum prices established pursuant to Maximum Price Regulation 592, for ready-mixed concrete, may be increased by adding to the established maximum prices per cubic yard for each specification of that commodity an amount not to exceed the actual dollars-and-cents additional cost, rounded off to the nearest $0.05 per cubic yard, resulting from the price increase for sales of cement permitted by Amendments Nos. 6, 9, 10, 11, and 12 to Maximum Price Regulation No. 224. The term "manufacturer" as used here means any person who makes the first sale of ready-mixed concrete.

This amendment shall become effective November 14, 1945.

Issued this 13th day of November 1945.

[Max. Import Price Reg., Order 361 Under Order 38]

PORTUGUESE AND SPANISH SARDINES

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the provisions of section (c) (5) of Order 38 under the Maximum Import Price Regulation, it is ordered:

(a) *Purpose of this order.* The purpose of this order is to establish separate maximum prices at which imported Portuguese and Spanish skinless and boneless sardines and Spanish boneless sardines (any brand) packed in olive oil, purchased at or less than the foreign purchase price set out in section (f), may be sold by importers to wholesalers, chain stores, independent retail stores, industrial and institutional users without having to make application to the Office of Price Administration for the issuance of an individual order.

(b) *Application of this order.* The maximum prices established by this order apply to importers' sales (with the exception provided in section (f)), to the classes of purchasers named herein, of all imported Portuguese and Spanish skinless and boneless sardines, and Spanish boneless sardines (any brand) packed in olive oil.

(c) *Importers' maximum prices.* The maximum prices, above which no importer shall sell and no person buying from an importer shall purchase, on sales to the classes of purchasers named, for the following designated size of imported Portuguese and Spanish skinless and boneless sardines and Spanish boneless sardines (any brand) packed in olive oil shall be as follows:

Sales by importers to—	Per case of 100/3¾-ounce tins		
	Portuguese, skinless and boneless	Spanish	
		Skinless and boneless	Boneless
Wholesalers and chain stores	$31.39	$35.52	$30.09
Independent retailers	33.06	37.40	31.69
Industrial and institutional users	34.45	38.97	33.02

The maximum prices authorized above are ex dock or ex warehouse any United States Continental point or port of entry. For sales with delivery made at some other point, payment incurred for transportation from the dock or warehouse at the point or port of entry to such other point may be added. Such transportation payment, however, shall not include the expense of local hauling or drayage within the metropolitan area of the point or port of arrival.

(d) *Terms of sale.* The importer with respect to his sales of imported Portuguese and Spanish skinless and boneless sardines and Spanish boneless sardines (any brand) packed in olive oil, for which maximum prices are established by this order, shall reduce such maximum prices by the discount for cash or prompt payment customarily granted in 1941 on sales of imported Portuguese and Spanish skinless and boneless sardines and Spanish boneless sardines (any brand) packed in olive oil, to purchasers of the same class.

(e) *Definitions.* A "wholesaler" is a person other than a chain store, an independent retail store, industrial or institutional user, who purchases and sells food products, generally, without materially changing their form.

A "chain store" is one of four or more retail stores under one ownership whose combined "annual gross sales" are $500,000 or more, and which purchases and re-sells food products, generally, without materially changing their form, to ultimate consumers other than industrial or institutional users.

An "independent retail store" is one that is not one of four or more stores under one ownership whose combined "annual gross sales" are $500,000 or more and which purchases and re-sells food products, generally, without materially changing their form, to ultimate consumers other than industrial or institutional users.

An "industrial user" is any person who, either for his own commercial use or for resale, subjects an imported food item covered by this order, to a process that results in the production of a new and different article having a distinctive name, character or use; or who uses such food item as an ingredient or a component part of such an article.

An "institutional user" is a restaurant, hotel, club, hospital, or other similar establishment using an imported food item covered by this order in preparation or service of meals to individual consumers.

(f) *Exception from this order.* (a) The maximum prices for sales of sardines purchased by importers from foreign sellers at foreign purchase prices in excess of $18.25 for Spanish boneless, $18.80 for Portuguese skinless and boneless and $22.45 for Spanish skinless and boneless per case of 100/3¾ ounce tins packed in olive oil (any brand) are not covered by this order and will continue to be authorized by individual order upon application to the Office of Price Administration in accordance with the provisions of paragraph (c) of Order 38 under the Maximum Import Price Regulation.

(b) The total landed costs upon which the Maximum prices in this order are based include duty in the amounts of $7.80 per case for the Portuguese and Spanish skinless and boneless sardines and $7.20 per case for the Spanish boneless sardines. If the duty actually paid is higher than that set out above, the increase may be added to the maximum prices on sales of these items. If the duty actually paid is lower than that set out above, the decrease must be subtracted from the maximum prices on sales of these items.

In the event of the refund of any amount of duty, which has been included in the total landed costs as compiled under this order, by the United States Treasury to the importer, the importer shall make refund of the amount of such refund to the final subsequent purchaser within 90 days from the receipt thereof or pay the amount so refunded to the United States Treasury.

(g) *Relation of this order to Order 38.* Unless the context otherwise requires, the provisions of Order 38 under the Maximum Import Price Regulation with the requirement for notice to purchasers as set out in paragraph (k) shall apply for the sale for which the maximum prices are established by this order.

(h) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective November 13, 1945.

Issued this 13th day of November 1945.

CHESTER BOWLES,
Administrator.
